

Wraparound Services Needs Assessment

Campus Needs Assessment Findings | Fall 2019 Survey

Wraparound Services in HISD

The Wraparound Services Department connects students and their families with non-academic community resources that support the students' ability to learn in school. The district currently partners with over 200 community organizations to offer wraparound services across 210 campuses. Wraparound Services Specialists in these campuses work with various organizations to address student and family needs within the domains of mental and physical health, food and housing insecurity, home and neighborhood safety, and out-of-school educational needs.

Supporting Students, Uplifting Communities

With support from the Houston Endowment and the City of Houston, HISD has recently committed to expanding its Wraparound Services Program. Dubbed the "Supporting Students, Uplifting Communities" initiative, HISD seeks to increase the number of Wraparound Services Specialists from 210 to 280, ensuring that every campus in the district has at least one dedicated full-time specialist by the 2021-22 school year.

Additionally, to better align the services that wraparound specialists have available to them with student and family needs, the district created and administered the first annual Needs Assessment Survey in Fall 2019. The survey was administered to students, parents, and teachers at existing wraparound campuses. In total, 51,769 students, 5,305 parents, and 4,698 teachers completed the survey.

The survey asked respondents to identify non-academic needs across five key domains: 1) Health, Dental, and Hygiene Needs, 2) Emotional and Psychological Needs, 3) Home and Family Needs, 4) Educational and Vocational Needs, and 5) Social and Recreational Needs.

Purpose of This Brief

The purpose of this brief is to provide an overview of how campus needs vary by neighborhood location and campus characteristics. This brief is divided into five sections:

- **Section I** (pg. 2) explores how the needs of students vary by campus characteristics (economic disadvantage, limited English proficiency, and special education)
- **Section II** (pg. 18) compares the needs at Achieve 180 campuses to the needs at non-Achieve 180 campuses
- **Section III** (pg. 24) presents maps illustrating the geographic distribution of high need campuses across HISD
- **Section IV** (pg. 30) provides tables ranking all current wraparound campuses by their level of need
- **Section V** (pg. 36) highlights the five highest need campuses for each question asked on the survey

Wraparound Services Needs Assessment

Section I: Needs by Campus Characteristics

Key challenges that families face in campuses serving high proportions of economically disadvantaged students.

- Visiting doctor when sick
- Annual vision checks
- Witnessing violence in neighborhood
- Eviction

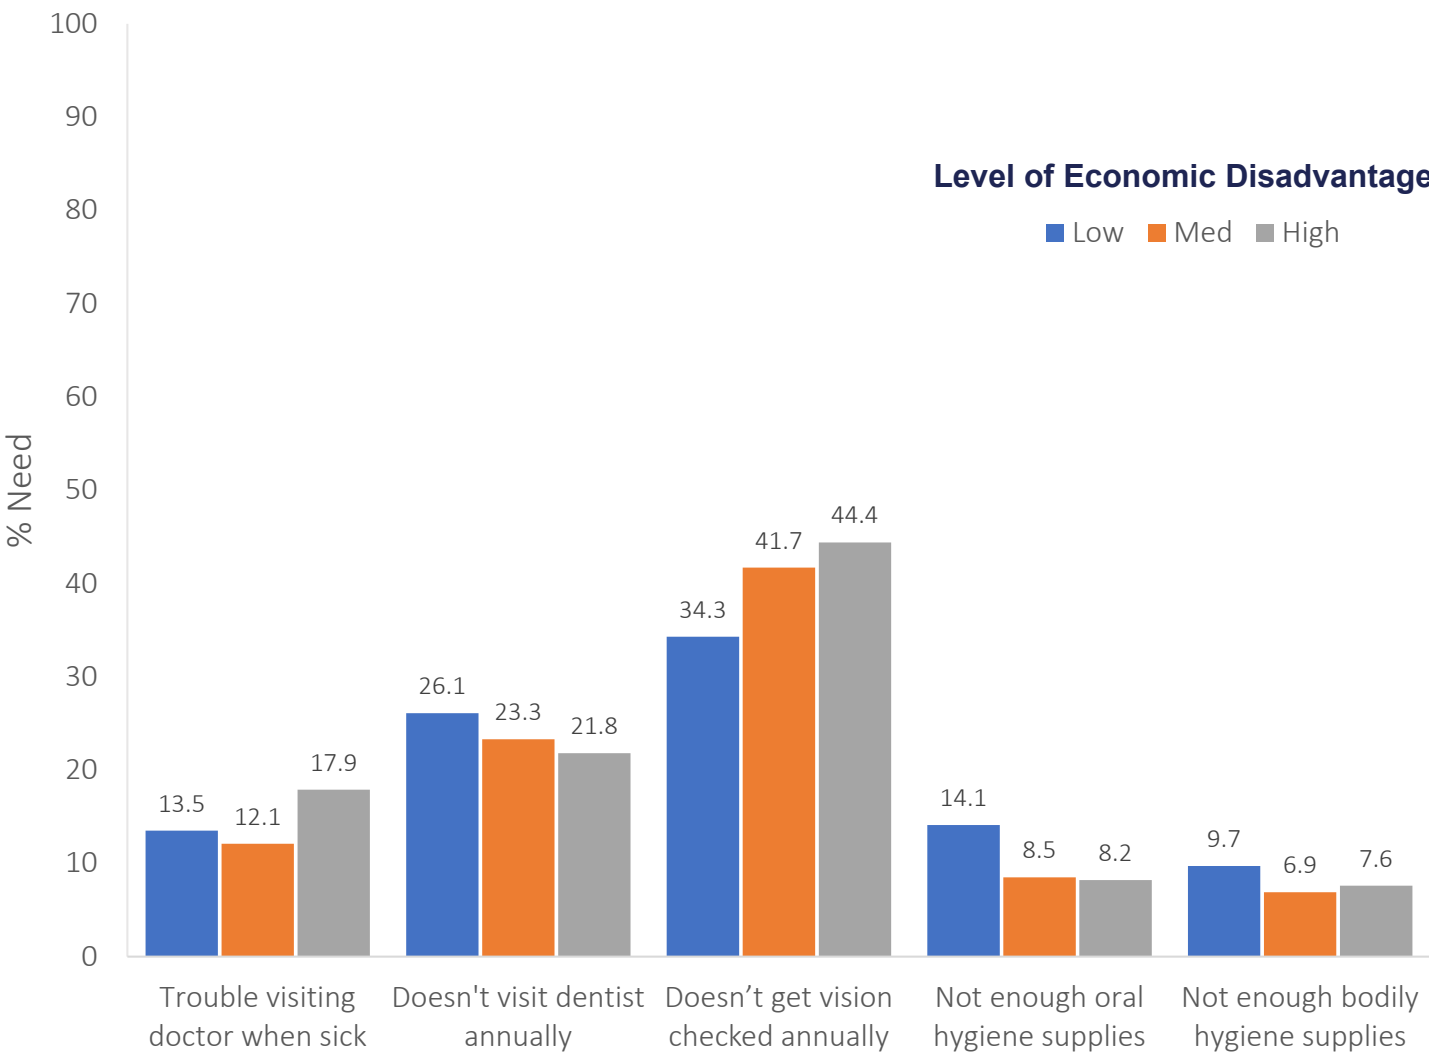

Key challenges that families face in campuses serving high proportions of English learners.

- Annual vision checks
- Annual dentist visits

Key challenges that families face in campuses serving high proportions of special education students.

- Limited books at home

Need by Level of Economic Disadvantage: Health, Dental, & Hygiene Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of economically disadvantaged students they serve. Schools in the bottom third of the economic disadvantage distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Economic Disadvantage Categories

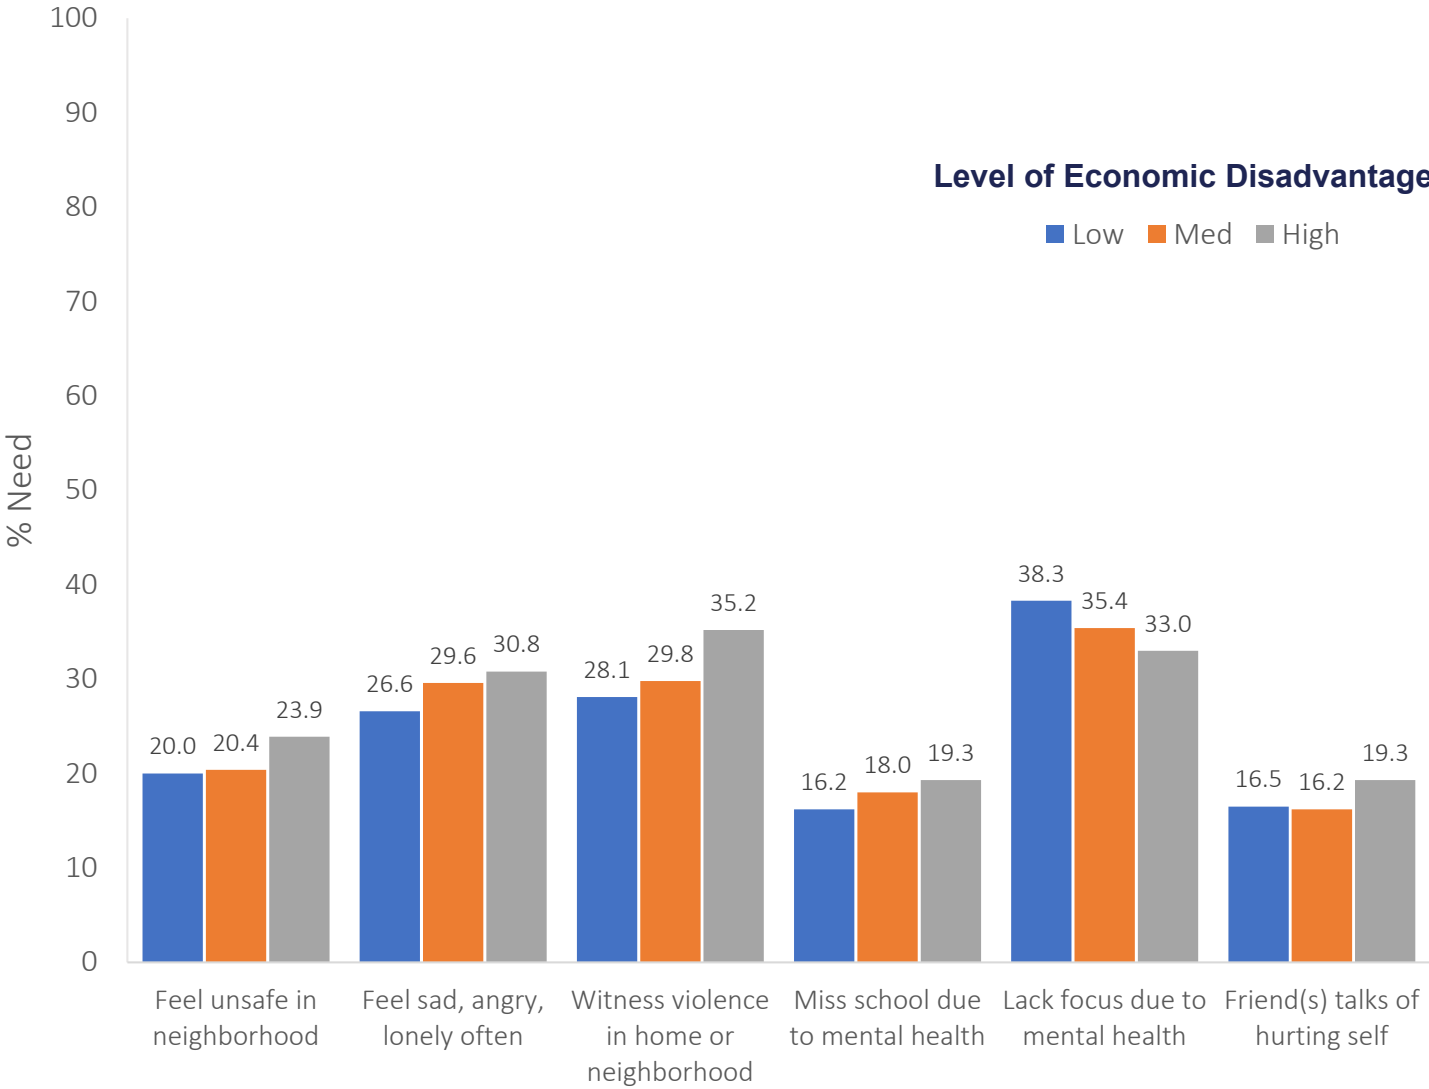

- Low:** Campuses with percentages of economically disadvantaged students below 93.5%
- Medium:** Campuses with percentages of economically disadvantaged students between 93.5% and 97.5%
- High:** Campuses with percentages of economically disadvantaged students above 97.5%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

17.9% of the students in campuses with the highest proportions of economically disadvantaged students reported not being able to see the doctor when sick (left-most grey bar).

Need by Level of Economic Disadvantage: Emotional & Psychological Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of economically disadvantaged students they serve. Schools in the bottom third of the economic disadvantage distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Economic Disadvantage Categories

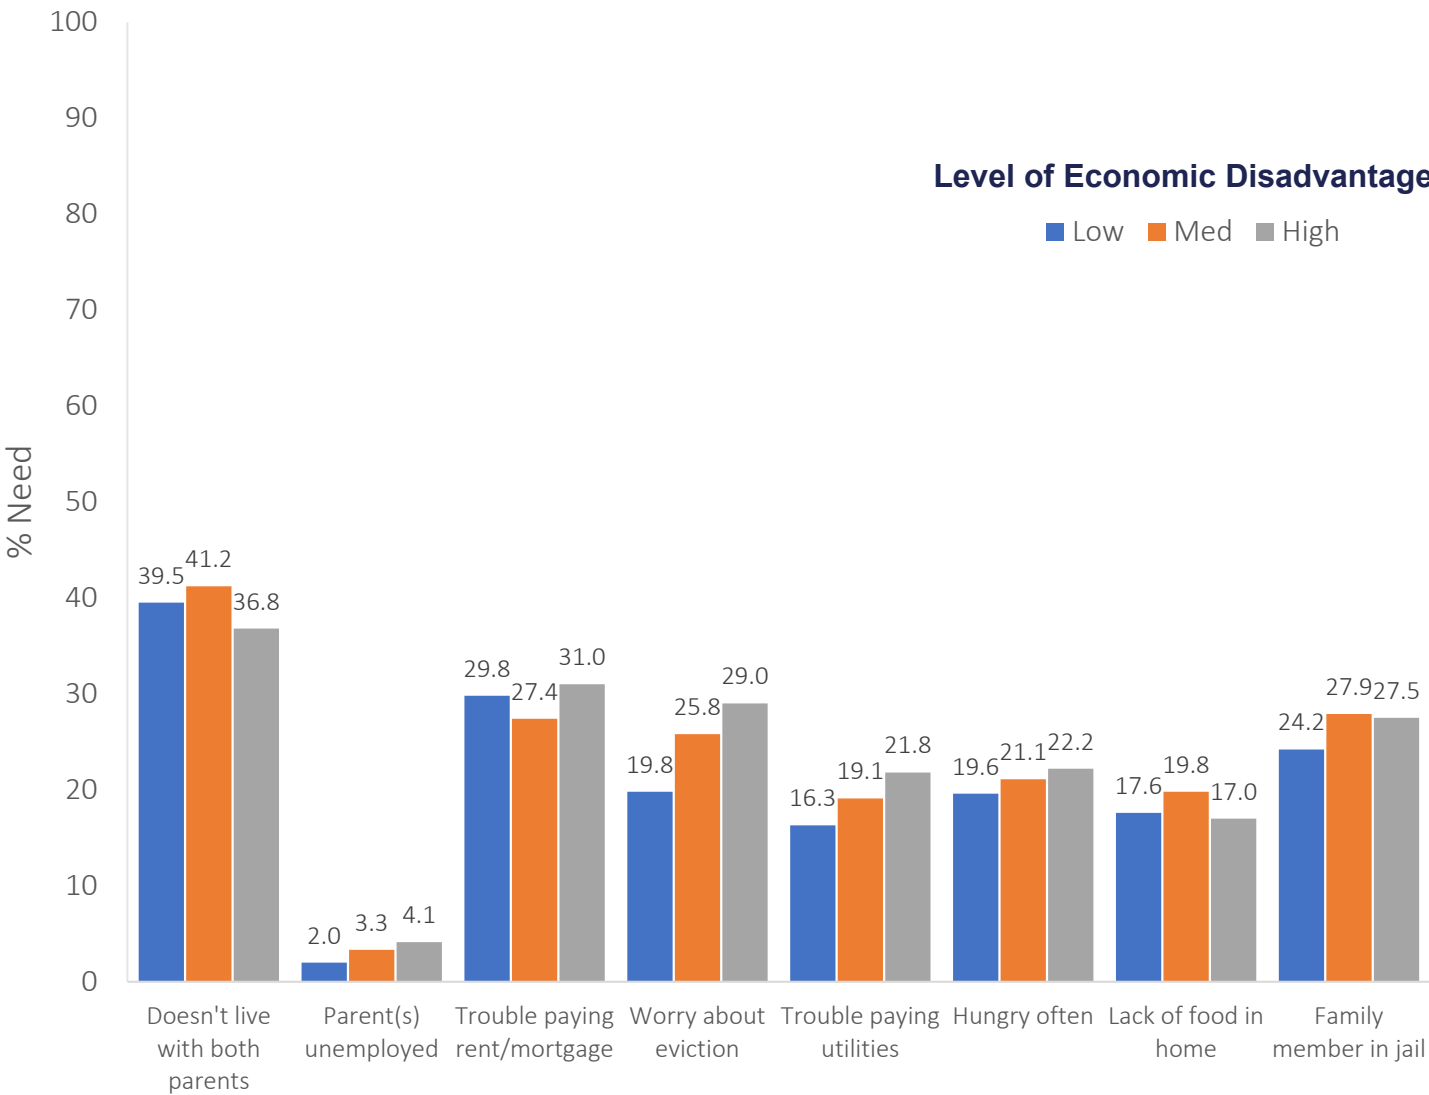

- Low:** Campuses with percentages of economically disadvantaged students below 93.5%
- Medium:** Campuses with percentages of economically disadvantaged students between 93.5% and 97.5%
- High:** Campuses with percentages of economically disadvantaged students above 97.5%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

23.9% of the students in campuses with the highest proportions of economically disadvantaged students reported not feeling safe in their neighborhood (left-most grey bar).

Need by Level of Economic Disadvantage: Home & Family Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of economically disadvantaged students they serve. Schools in the bottom third of the economic disadvantage distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Economic Disadvantage Categories

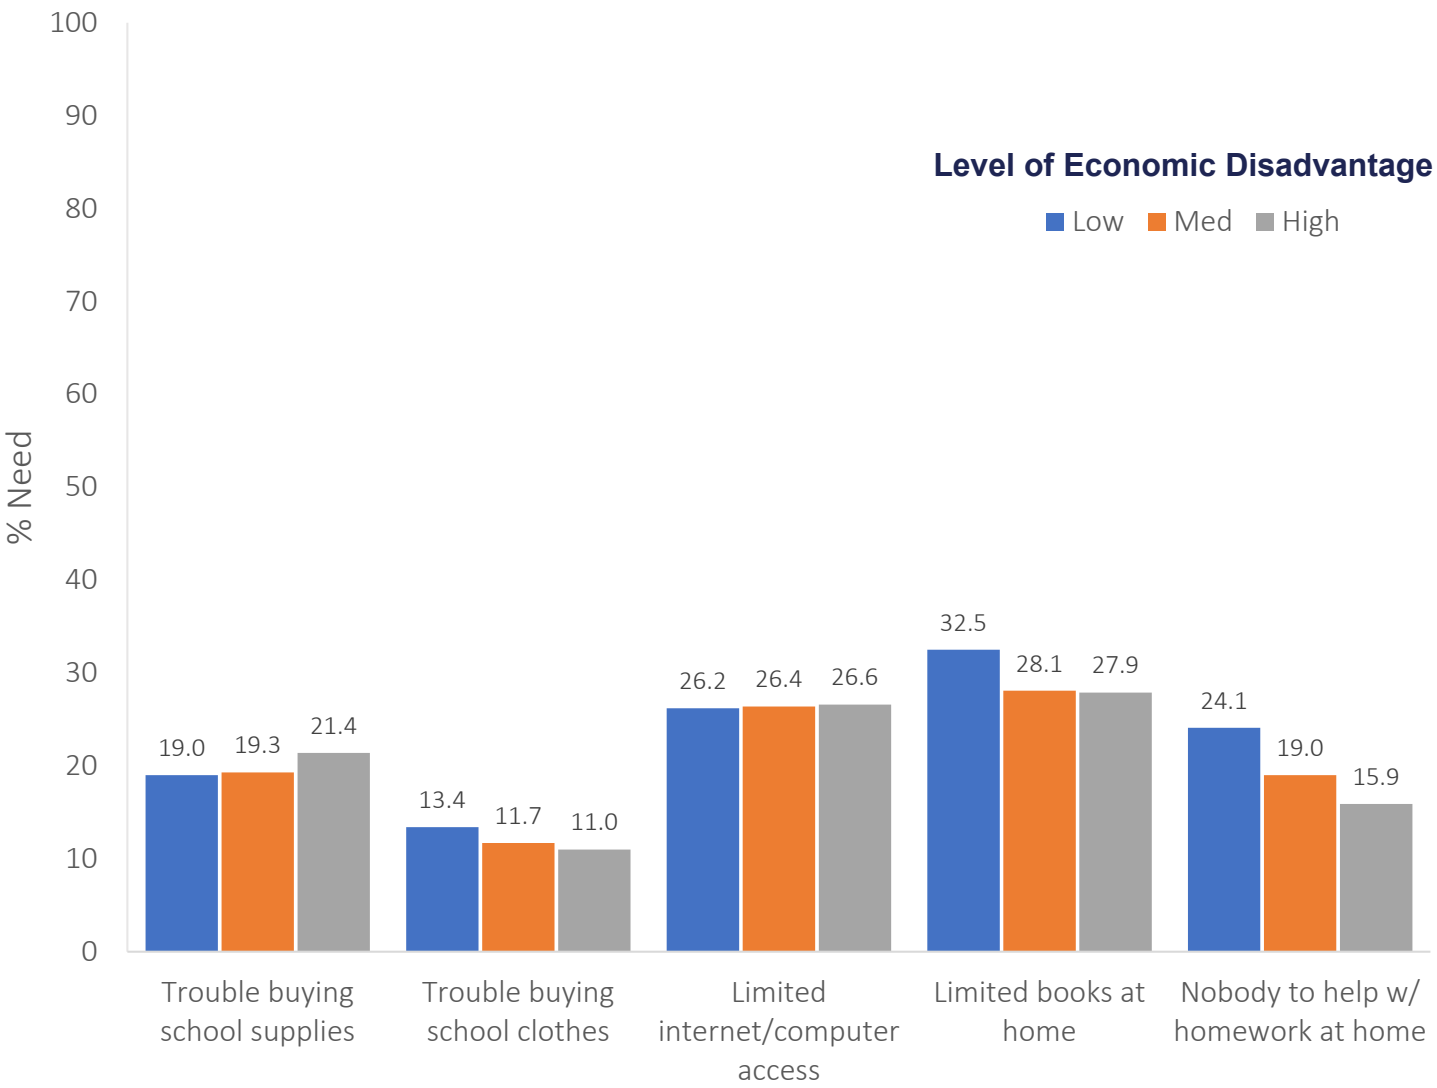

- Low:** Campuses with percentages of economically disadvantaged students below 93.5%
- Medium:** Campuses with percentages of economically disadvantaged students between 93.5% and 97.5%
- High:** Campuses with percentages of economically disadvantaged students above 97.5%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

36.8% of the students in campuses with the highest proportions of economically disadvantaged students reported not living with both their parents (left-most grey bar).

Need by Level of Economic Disadvantage: Educational & Vocational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of economically disadvantaged students they serve. Schools in the bottom third of the economic disadvantage distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Economic Disadvantage Categories

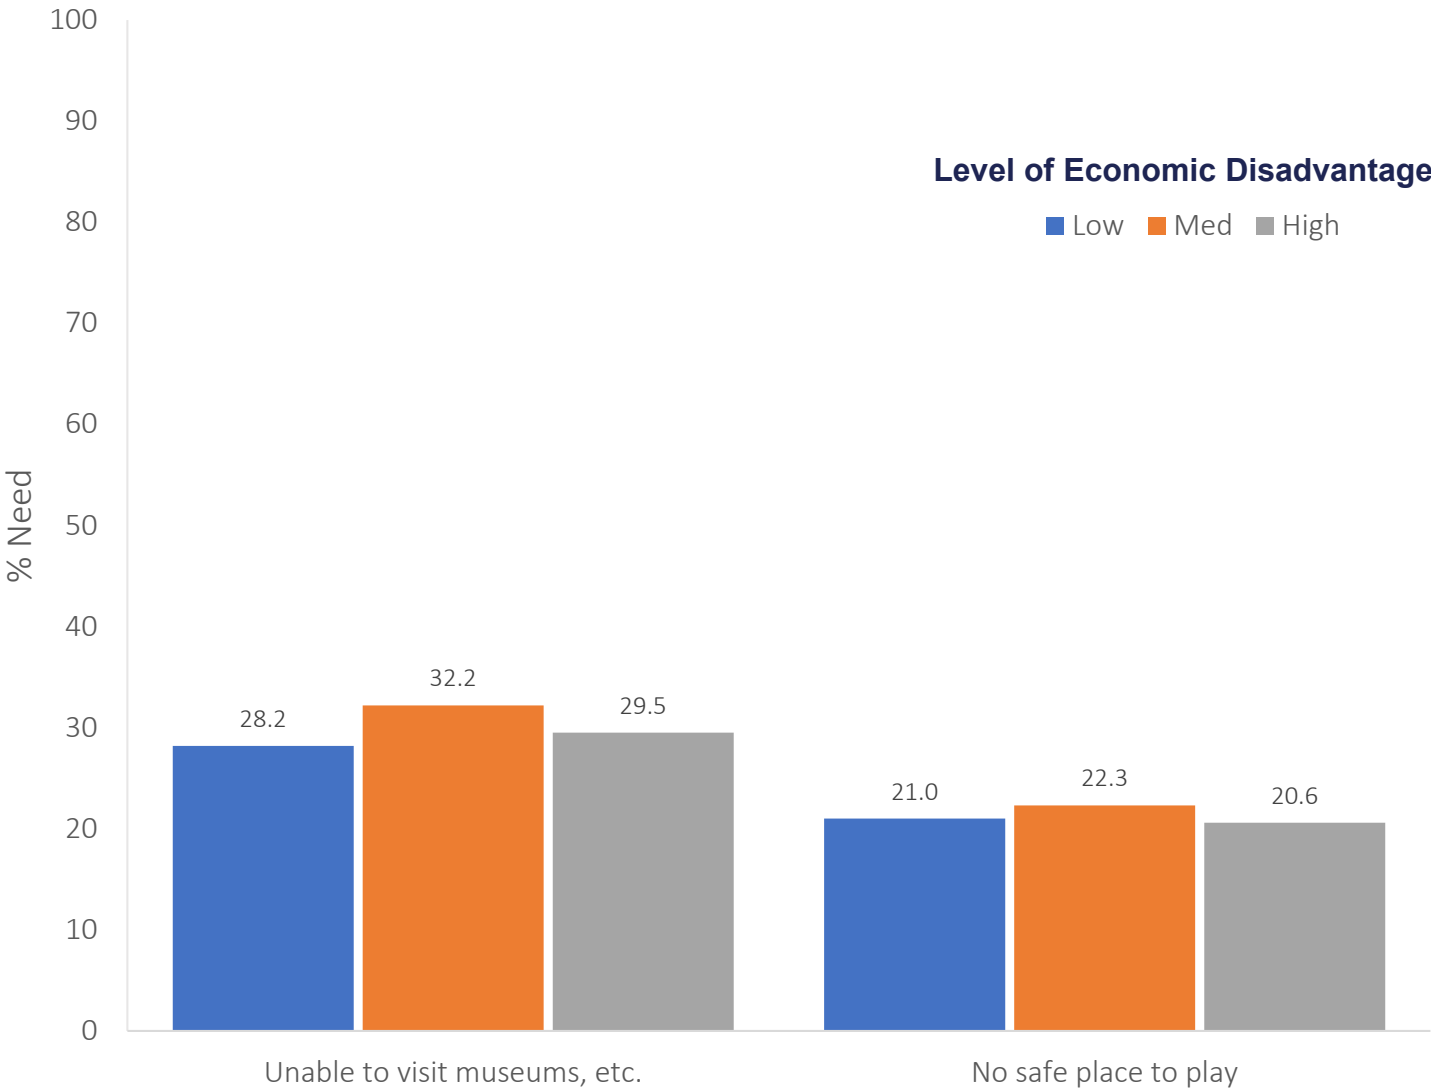

- Low:** Campuses with percentages of economically disadvantaged students below 93.5%
- Medium:** Campuses with percentages of economically disadvantaged students between 93.5% and 97.5%
- High:** Campuses with percentages of economically disadvantaged students above 97.5%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

21.4% of the students in campuses with the highest proportions of economically disadvantaged reported trouble buying school supplies (left-most grey bar).

Need by Level of Economic Disadvantage: Social & Recreational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of economically disadvantaged students they serve. Schools in the bottom third of the economic disadvantage distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Economic Disadvantage Categories

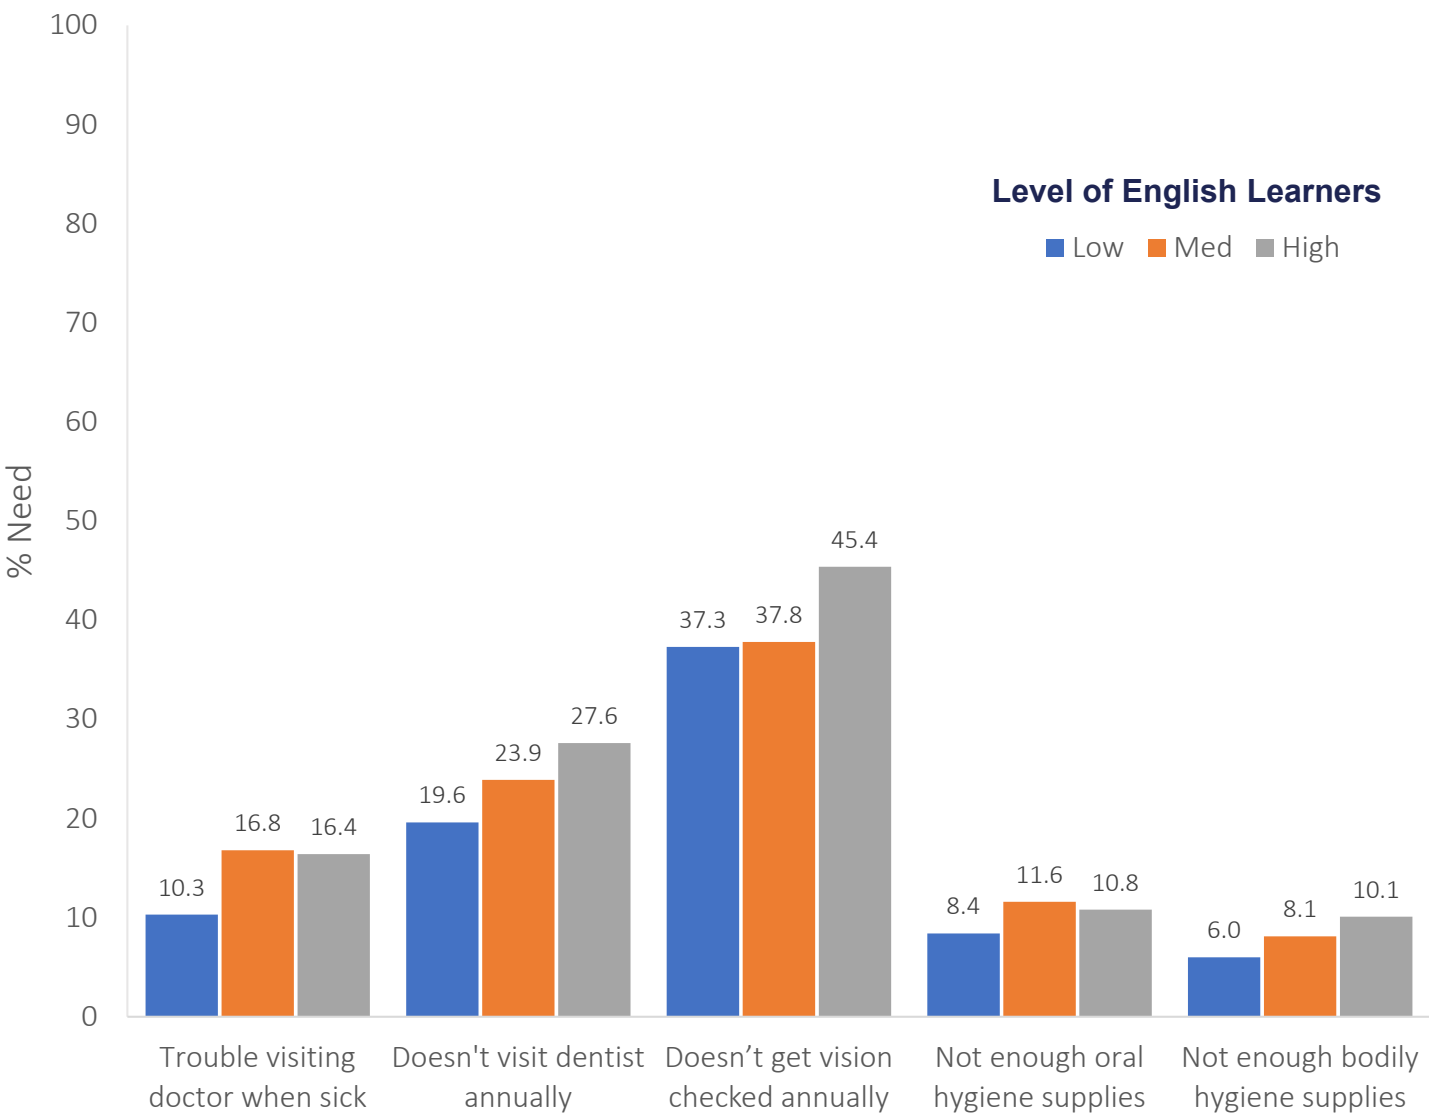

- Low:** Campuses with percentages of economically disadvantaged students below 93.5%
- Medium:** Campuses with percentages of economically disadvantaged students between 93.5% and 97.5%
- High:** Campuses with percentages of economically disadvantaged students above 97.5%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

29.5% of the students in campuses with the highest proportions of economically disadvantaged students reported they did not go to museums or other interesting places in the city (left-most grey bar).

Need by Level of English Learners: Health, Dental, & Hygiene Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of English learners they serve. Schools in the bottom third of the English learner distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

English Learner Categories

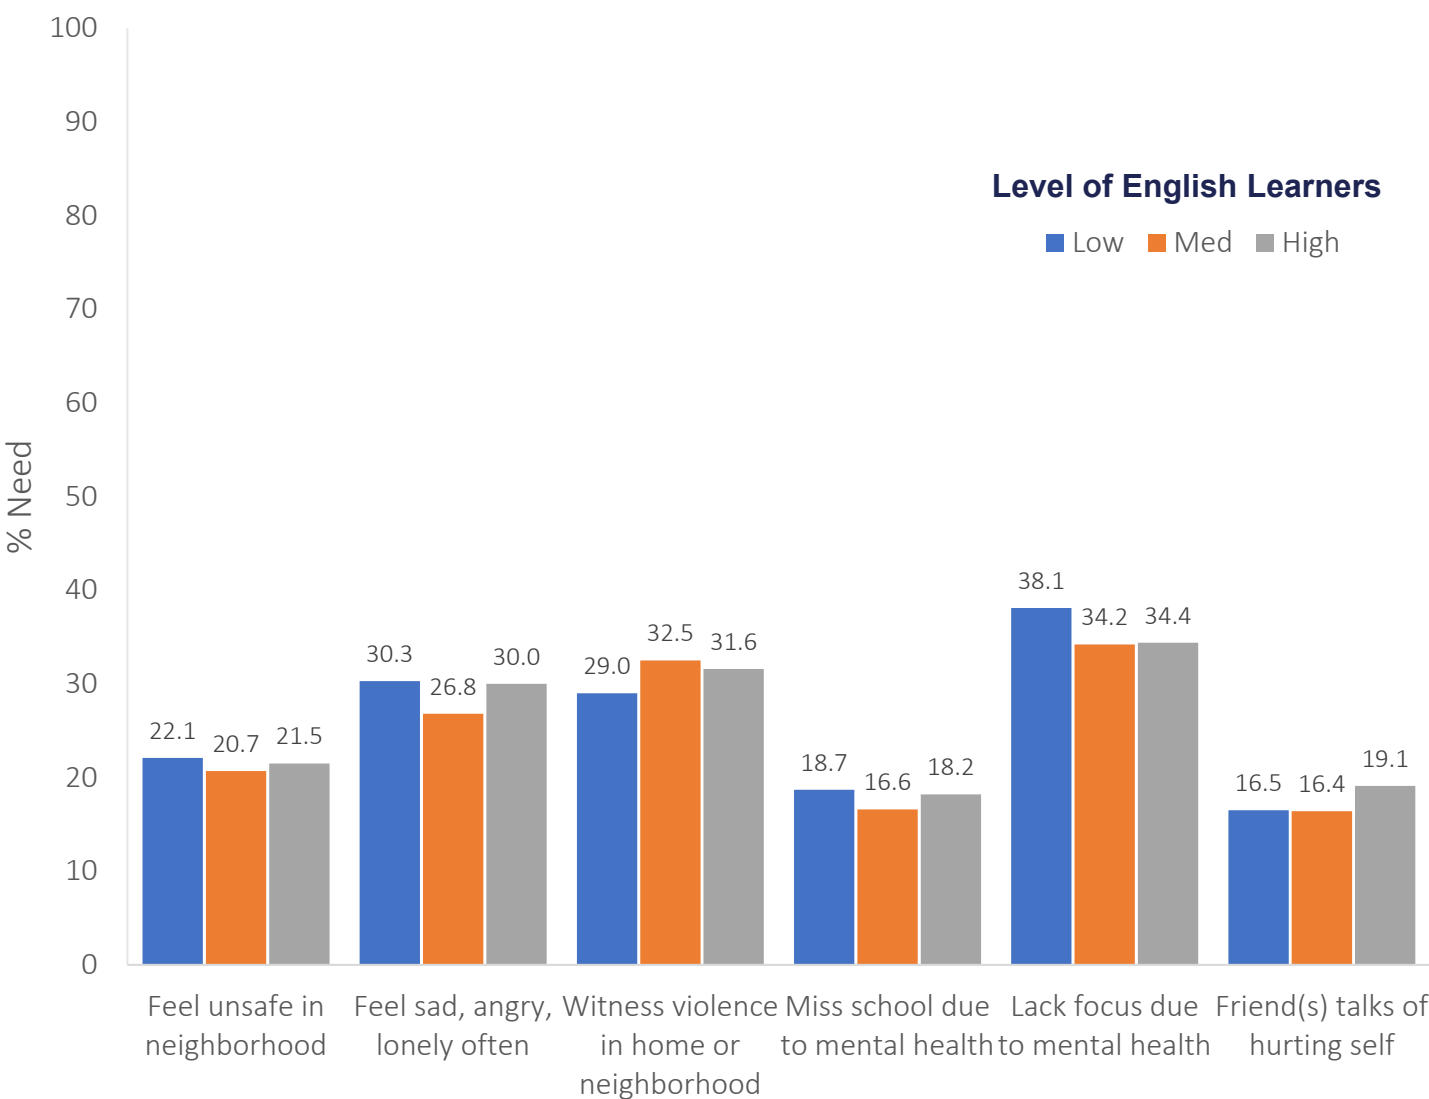

- Low:** Campuses with percentages of English learners below 24.1%
- Medium:** Campuses with percentages of English learners between 24.1% and 45.4%
- High:** Campuses with percentages of English learners above 45.4%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

16.4% of the students in campuses with the highest proportions of English learner reported not being able to see the doctor when sick (left-most grey bar).

Need by Level of English Learners: Emotional & Psychological Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of English learners they serve. Schools in the bottom third of the English learner distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

English Learner Categories

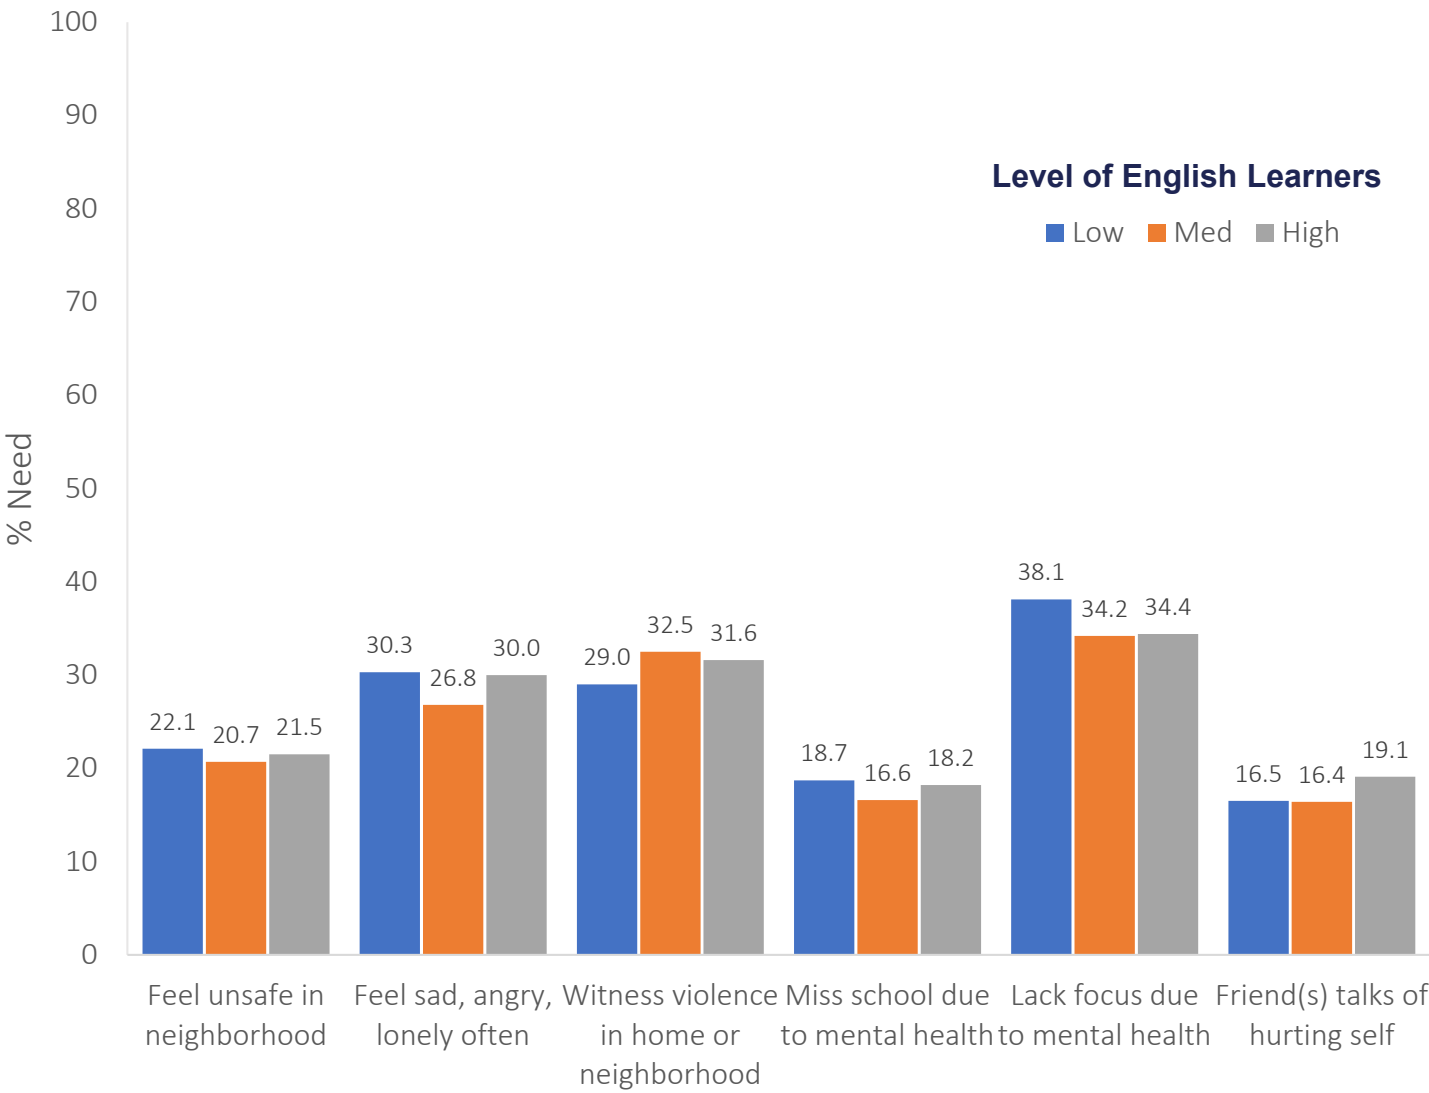

- Low:** Campuses with percentages of English learners below 24.1%
- Medium:** Campuses with percentages of English learners between 24.1% and 45.4%
- High:** Campuses with percentages of English learners above 45.4%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

21.5% of the students in campuses with the highest proportions of English learners reported not feeling safe in their neighborhood (left-most grey bar).

Need by Level of English Learners: Home & Family Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of English learners they serve. Schools in the bottom third of the English learner distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

English Learner Categories

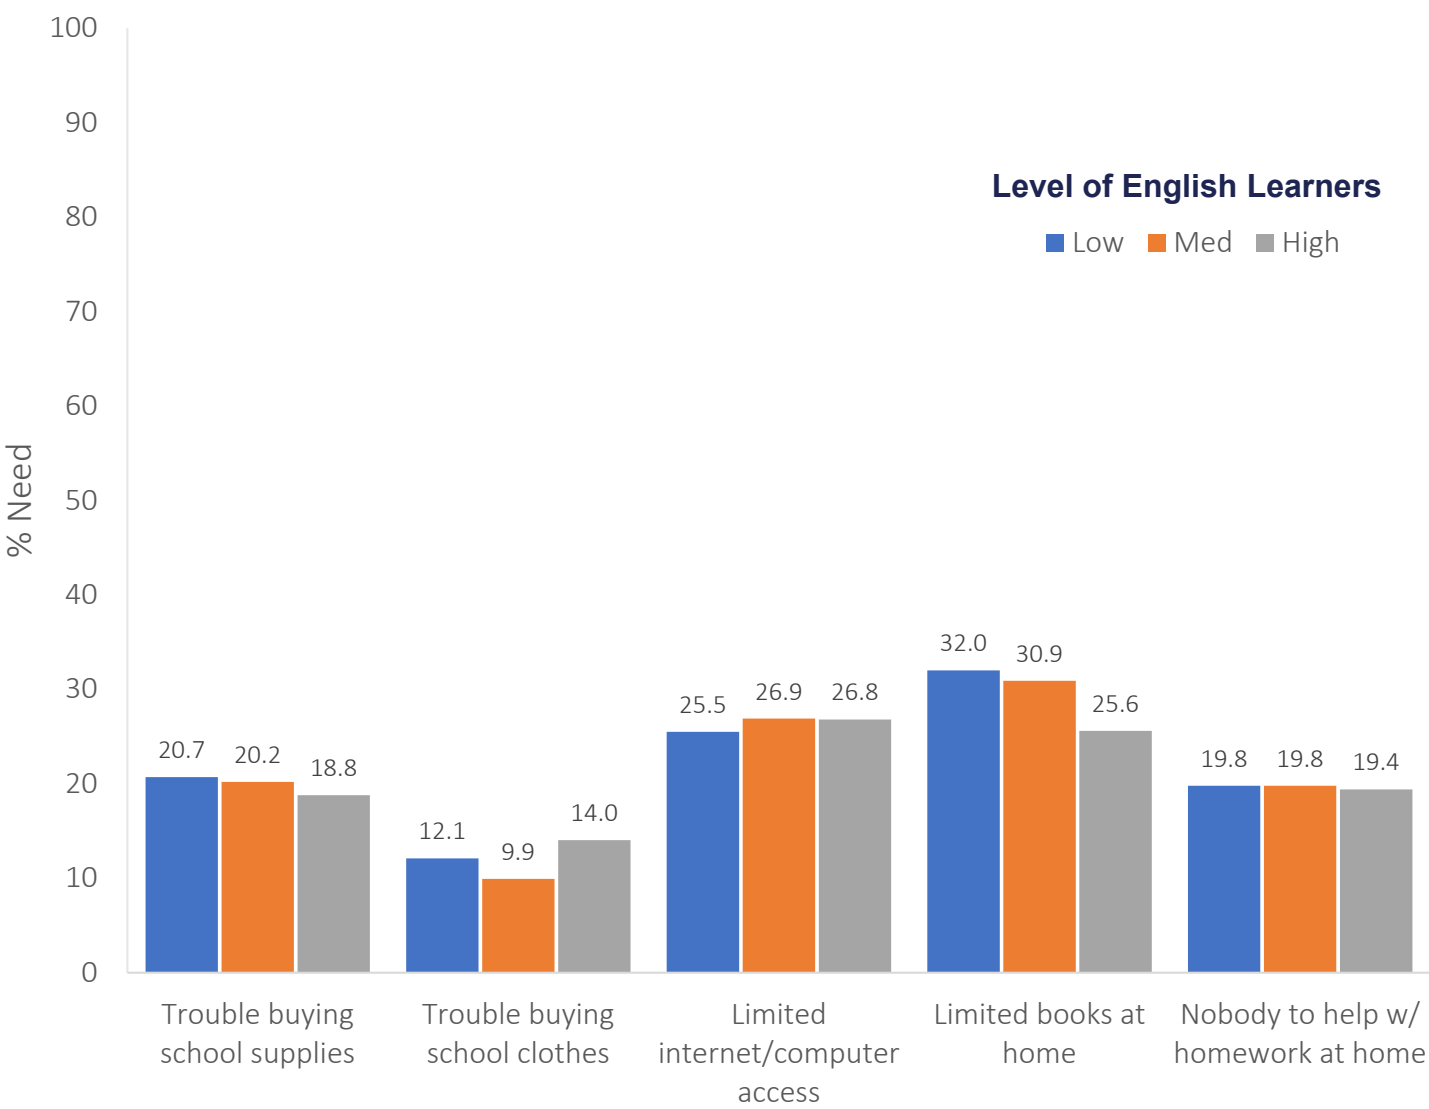

- Low:** Campuses with percentages of English learners below 24.1%
- Medium:** Campuses with percentages of English learners between 24.1% and 45.4%
- High:** Campuses with percentages of English learners above 45.4%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

21.5% of the students in campuses with the highest proportions of English learners reported not living with both their parents (left-most grey bar).

Need by Level of English Learners: Educational & Vocational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of English learners they serve. Schools in the bottom third of the English learner distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

English Learner Categories

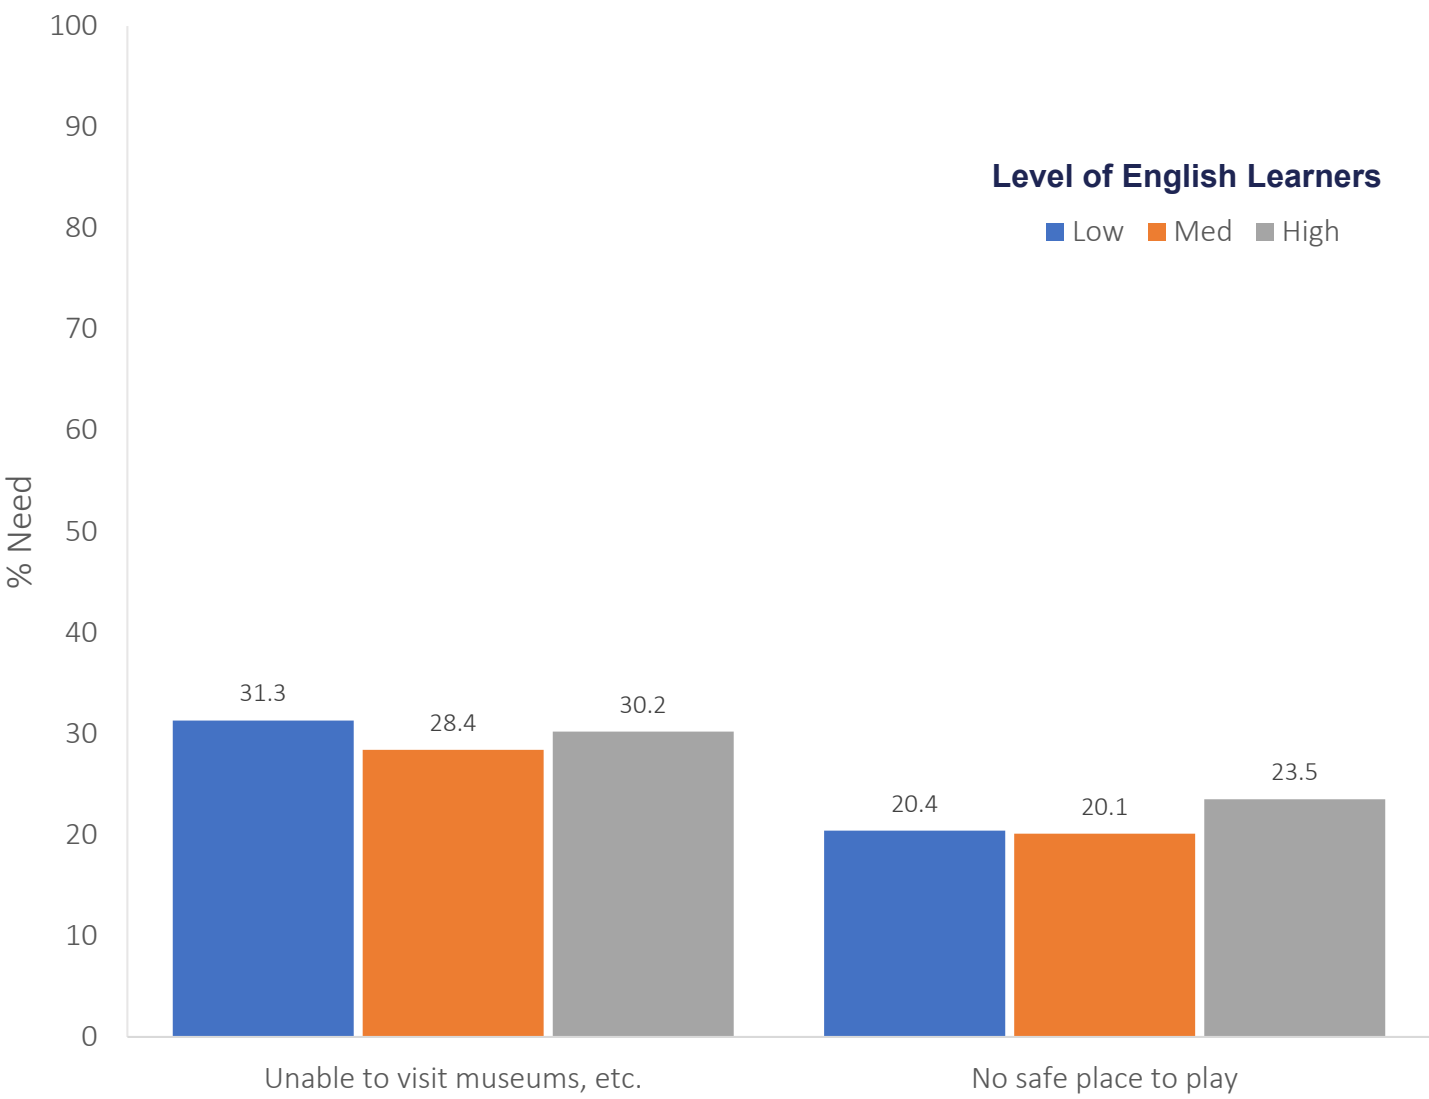

- Low:** Campuses with percentages of English learners below 24.1%
- Medium:** Campuses with percentages of English learners between 24.1% and 45.4%
- High:** Campuses with percentages of English learners above 45.4%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

18.8% of the students in campuses with the highest proportions of English learners reported trouble buying school supplies (left-most grey bar).

Need by Level of English Learners : Social & Recreational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of English learners they serve. Schools in the bottom third of the English learner distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

English Learner Categories

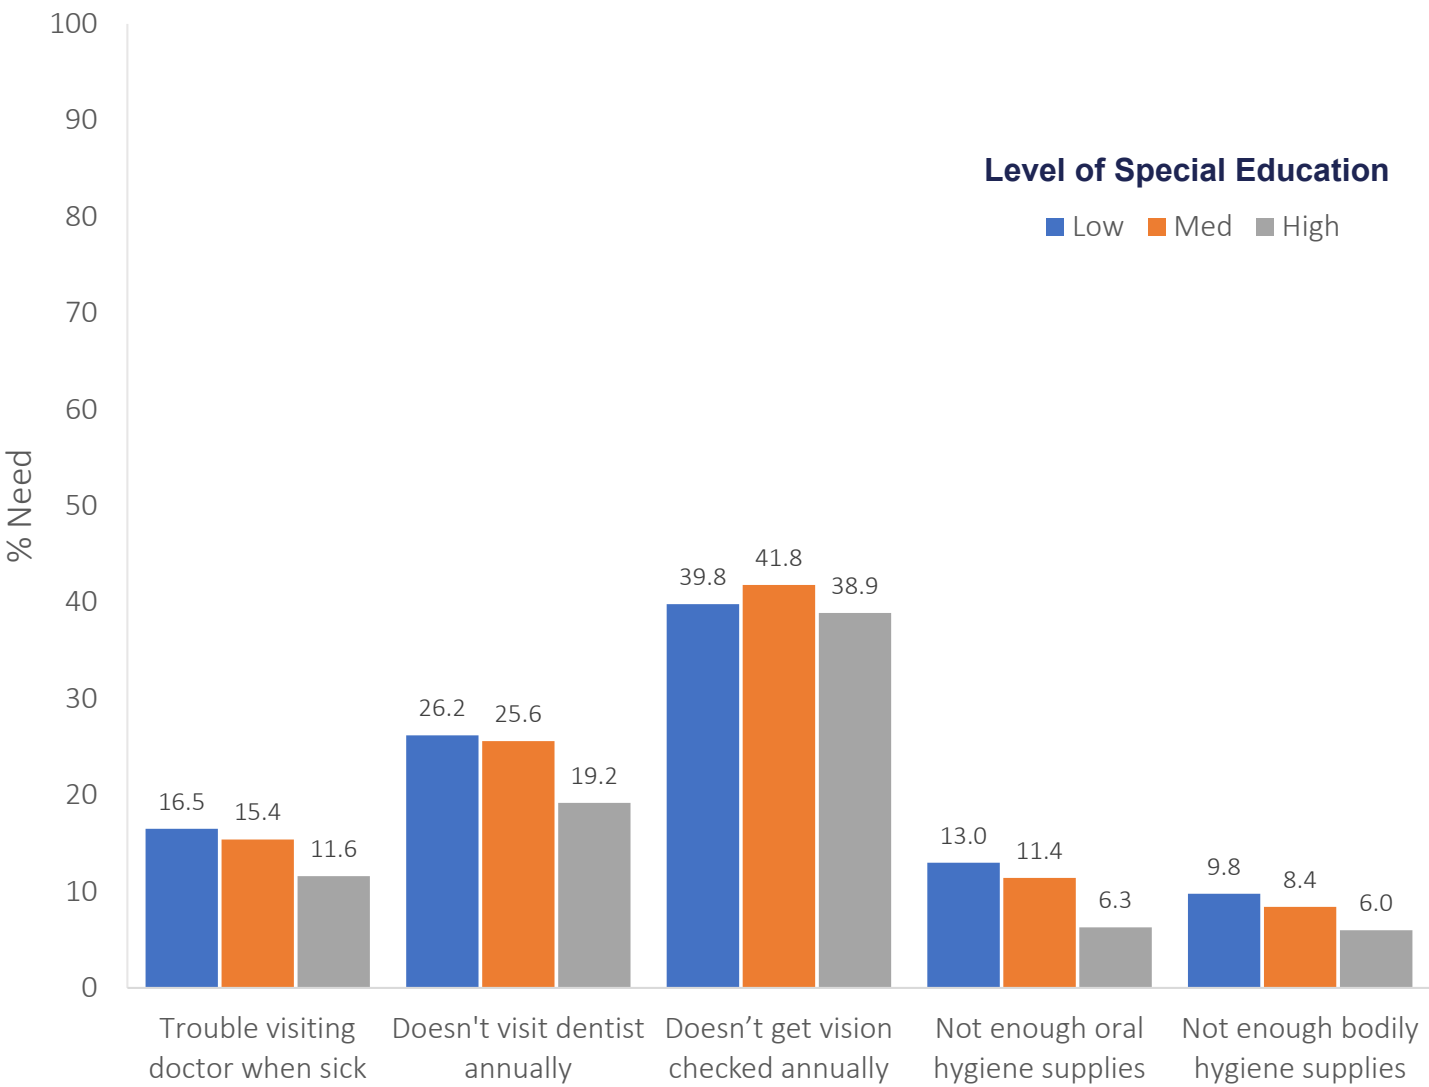

- Low:** Campuses with percentages of English learners below 24.1%
- Medium:** Campuses with percentages of English learners between 24.1% and 45.4%
- High:** Campuses with percentages of English learners above 45.4%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

30.2% of the students in campuses with the highest proportions of English learners reported they did not go to museums or other interesting places in the city (left-most grey bar).

Need by Level of Special Education: Health, Dental, & Hygiene Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of special education students they serve. Schools in the bottom third of the special education distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Special Education Categories

Low: Campuses with percentages of special education students below 7.6%

Medium: Campuses with percentages of special education students between 7.6% and 10.9%

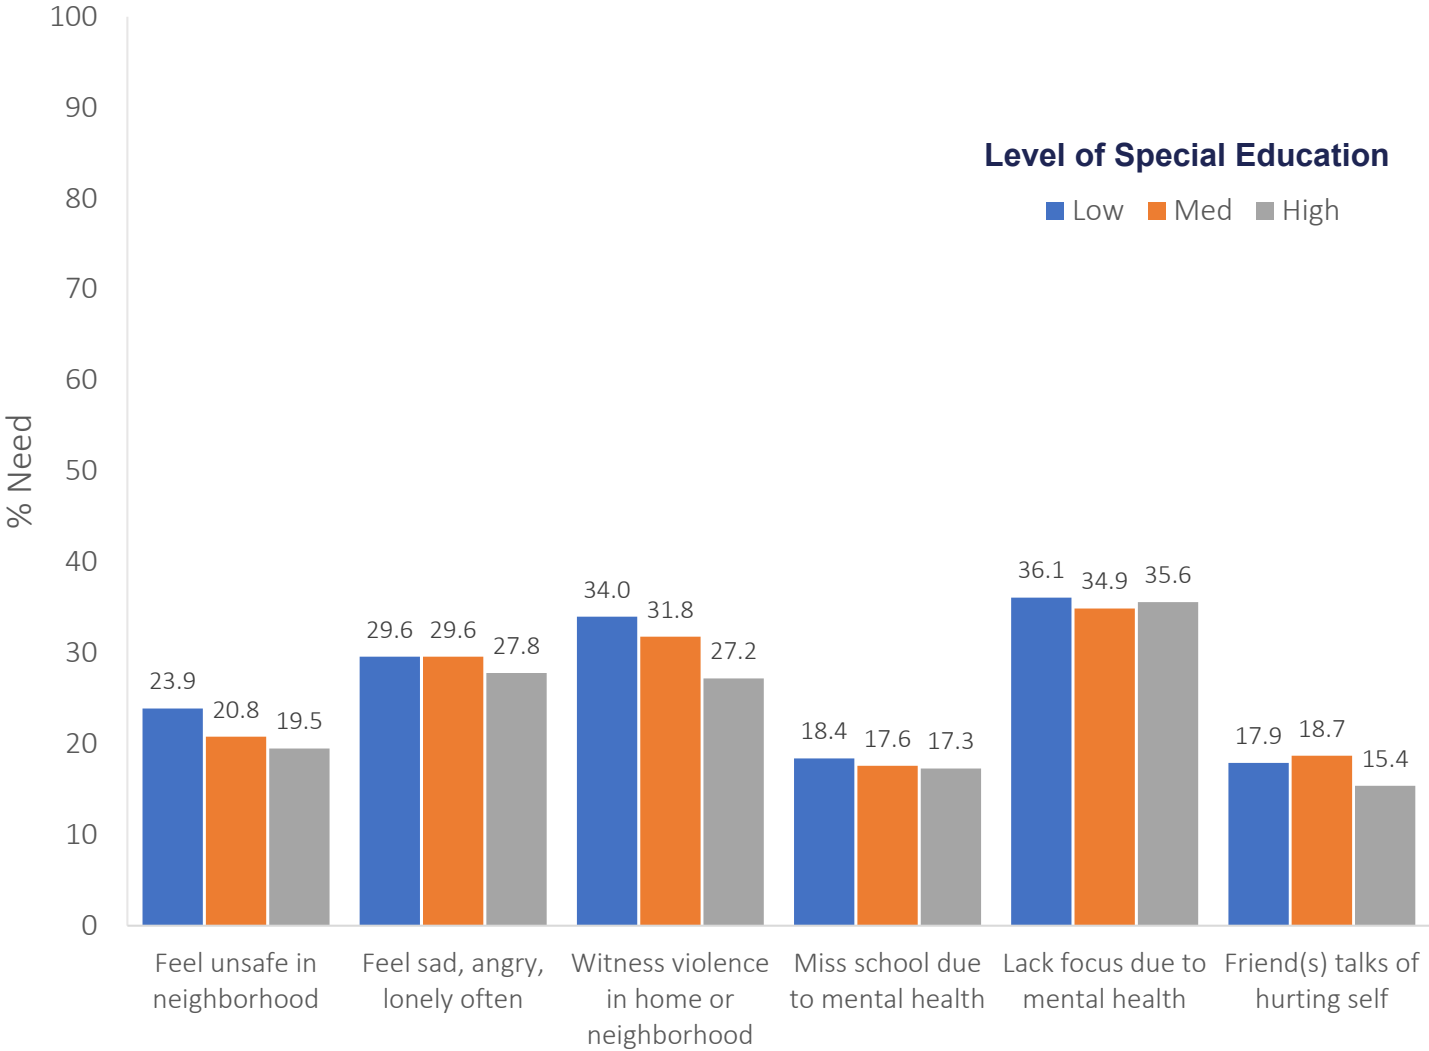

High: Campuses with percentages of special education students above 10.9%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

11.6% of the students in campuses with the highest proportions of special education students reported not being able to see the doctor when sick (left-most grey bar).

Need by Level of Special Education: Emotional & Psychological Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of special education students they serve. Schools in the bottom third of the special education distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Special Education Categories

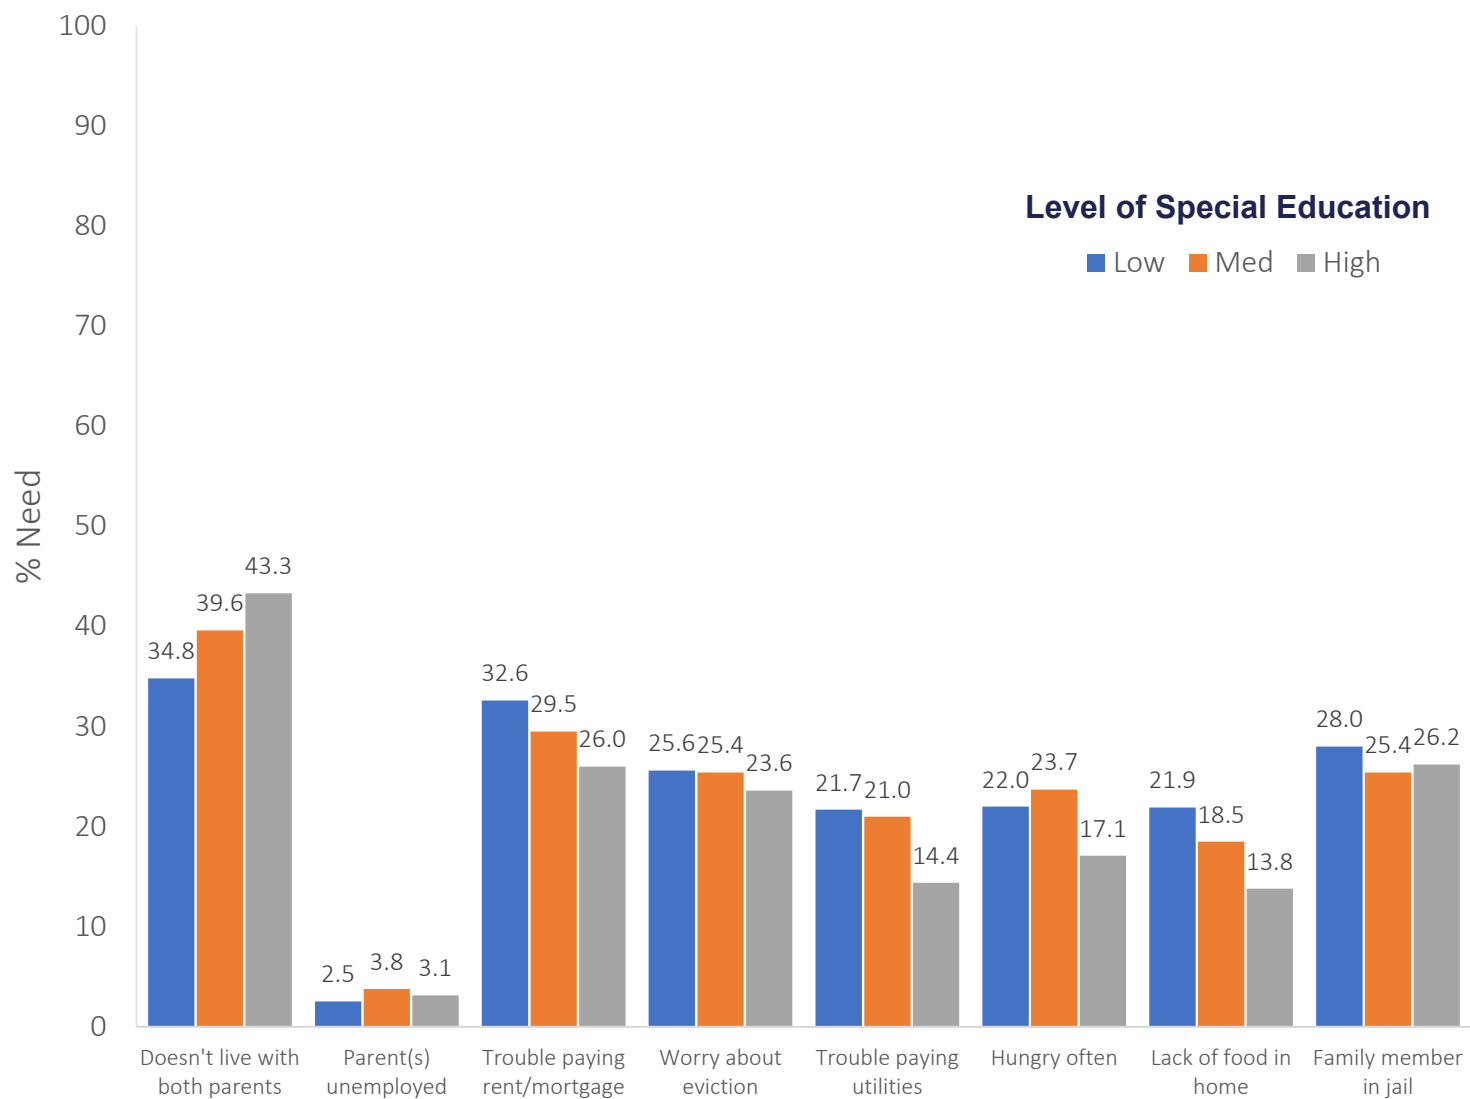

- Low:** Campuses with percentages of special education students below 7.6%
- Medium:** Campuses with percentages of special education students between 7.6% and 10.9%
- High:** Campuses with percentages of special education students above 10.9%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

19.5% of the students in campuses with the highest proportions of special education students reported not feeling safe in their neighborhood (left-most grey bar).

Need by Level of Special Education: Home & Family Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of special education students they serve. Schools in the bottom third of the special education distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Special Education Categories

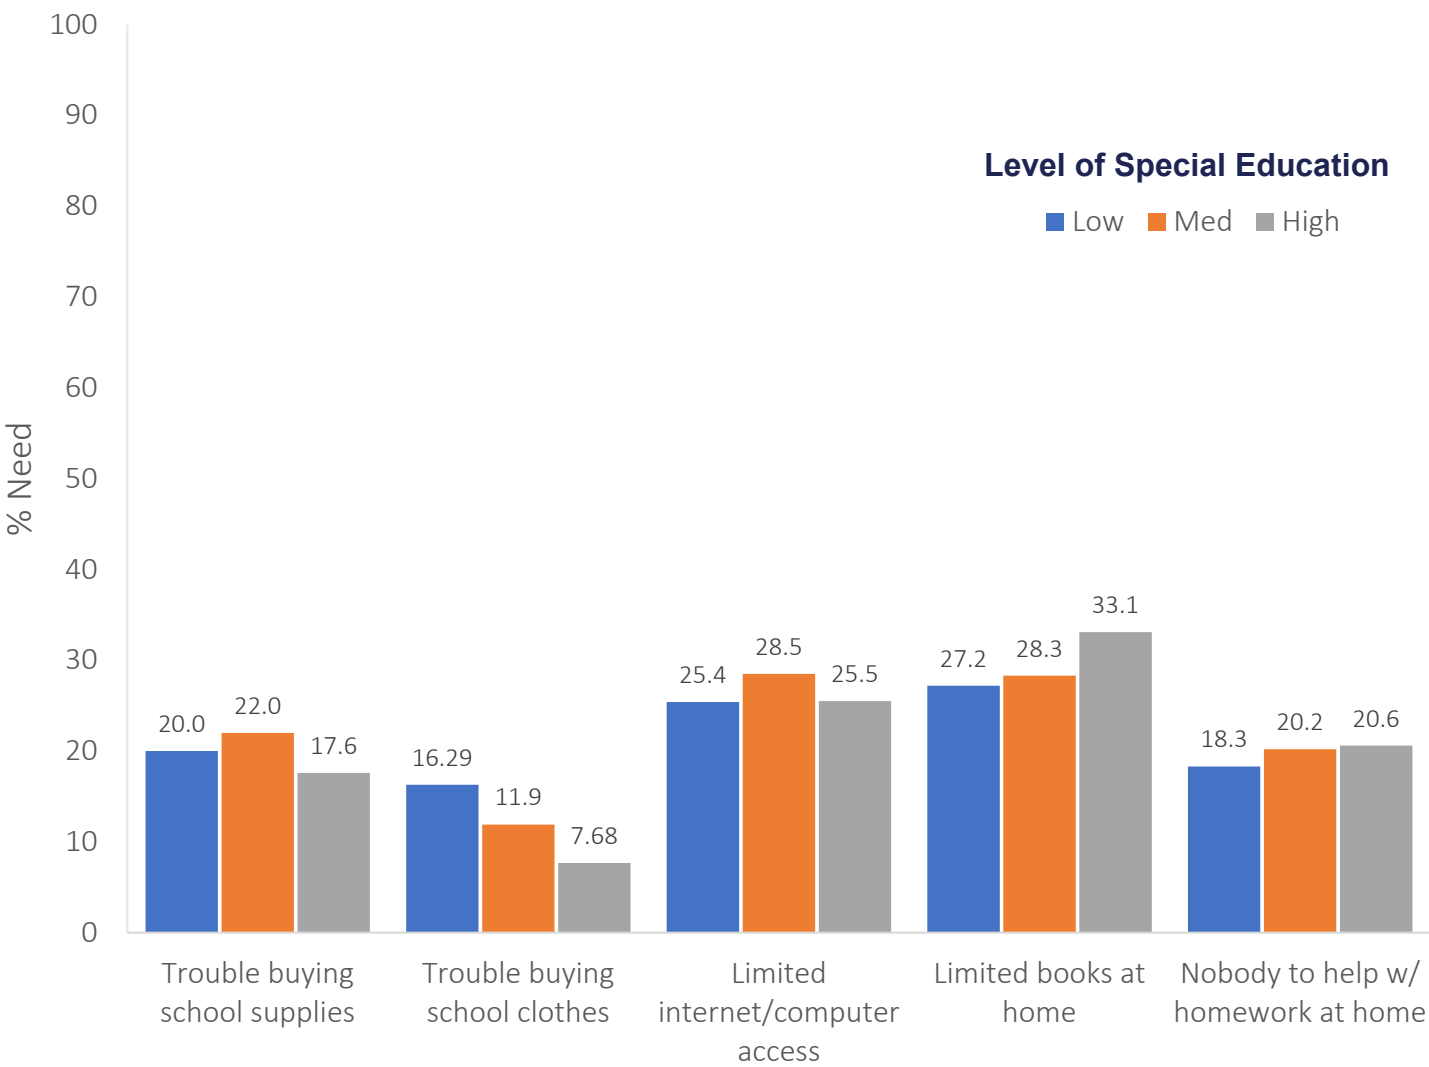

- Low:** Campuses with percentages of special education students below 7.6%
- Medium:** Campuses with percentages of special education students between 7.6% and 10.9%
- High:** Campuses with percentages of special education students above 10.9%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

43.3% of the students in campuses with the highest proportions of special education students reported not living with both their parents (left-most grey bar).

Need by Level of Special Education: Educational & Vocational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of special education students they serve. Schools in the bottom third of the special education distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Special Education Categories

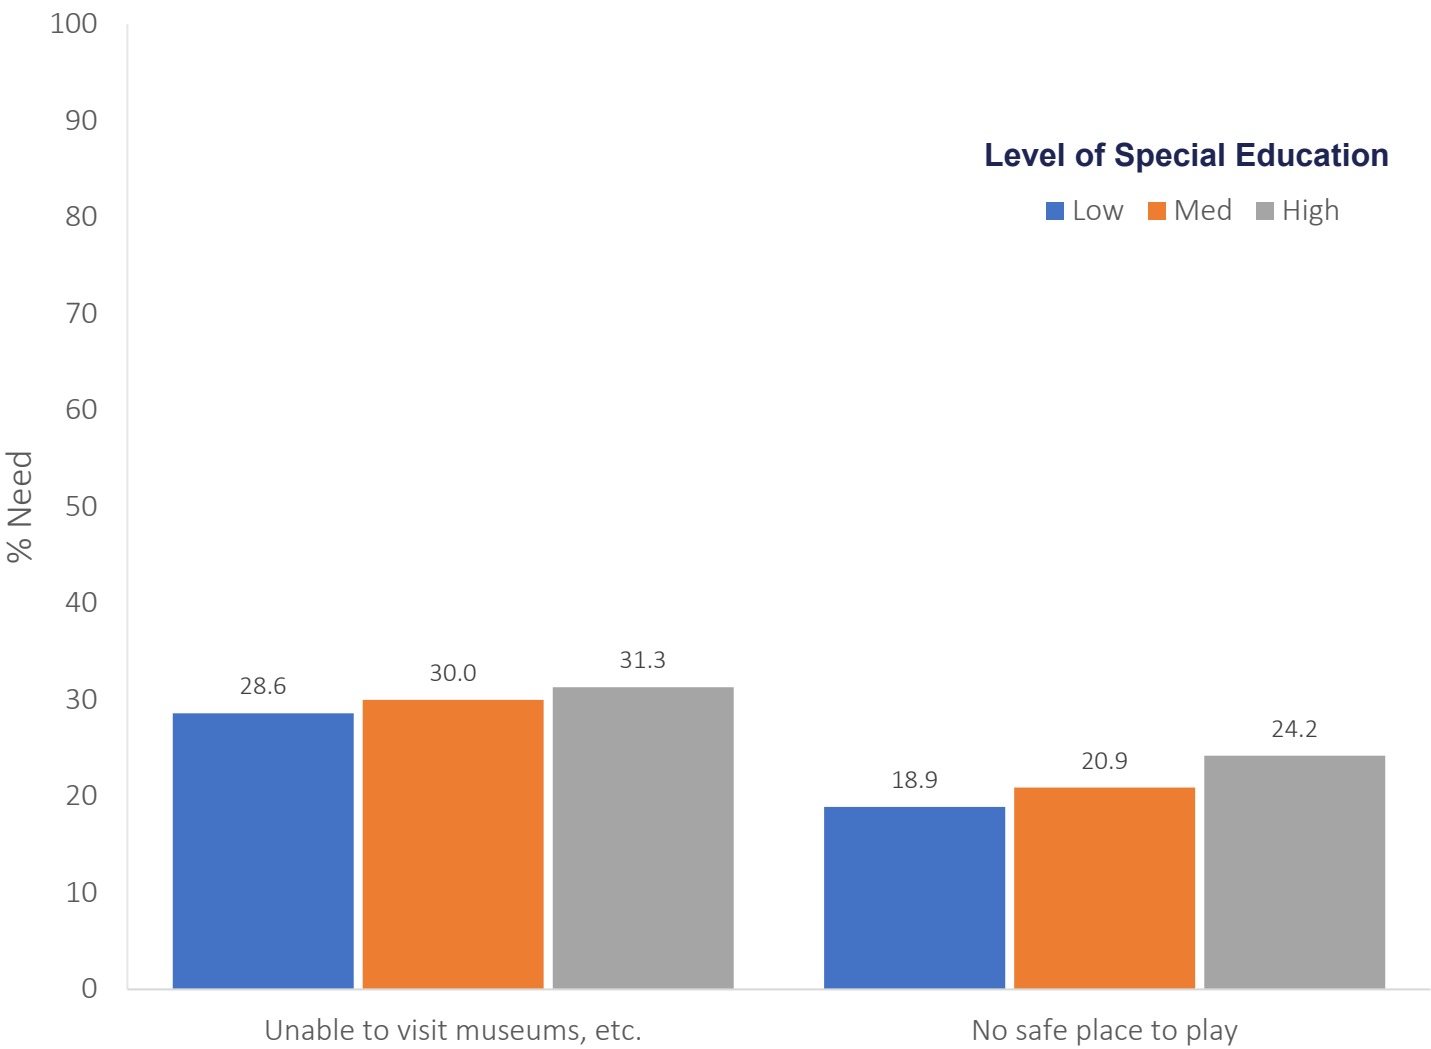

- Low:** Campuses with percentages of special education students below 7.6%
- Medium:** Campuses with percentages of special education students between 7.6% and 10.9%
- High:** Campuses with percentages of special education students above 10.9%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

17.6% of the students in campuses with the highest proportions of special education students reported trouble buying school supplies (left-most grey bar).

Need by Level of Special Education: Social & Recreational Needs

How to interpret the figure

Campuses were split into three groups (Low, Medium, and High) based on the percentage of special education students they serve. Schools in the bottom third of the special education distribution were labeled as **Low**, schools in the middle third were labeled **Medium**, and schools in the top third were labeled **High**.

Special Education Categories

- Low:** Campuses with percentages of special education students below 7.6%
- Medium:** Campuses with percentages of special education students between 7.6% and 10.9%
- High:** Campuses with percentages of special education students above 10.9%

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

31.3% of the students in campuses with the highest proportions of special education students reported they did not go to museums or other interesting places in the city (left-most grey bar).

Wraparound Services Needs Assessment

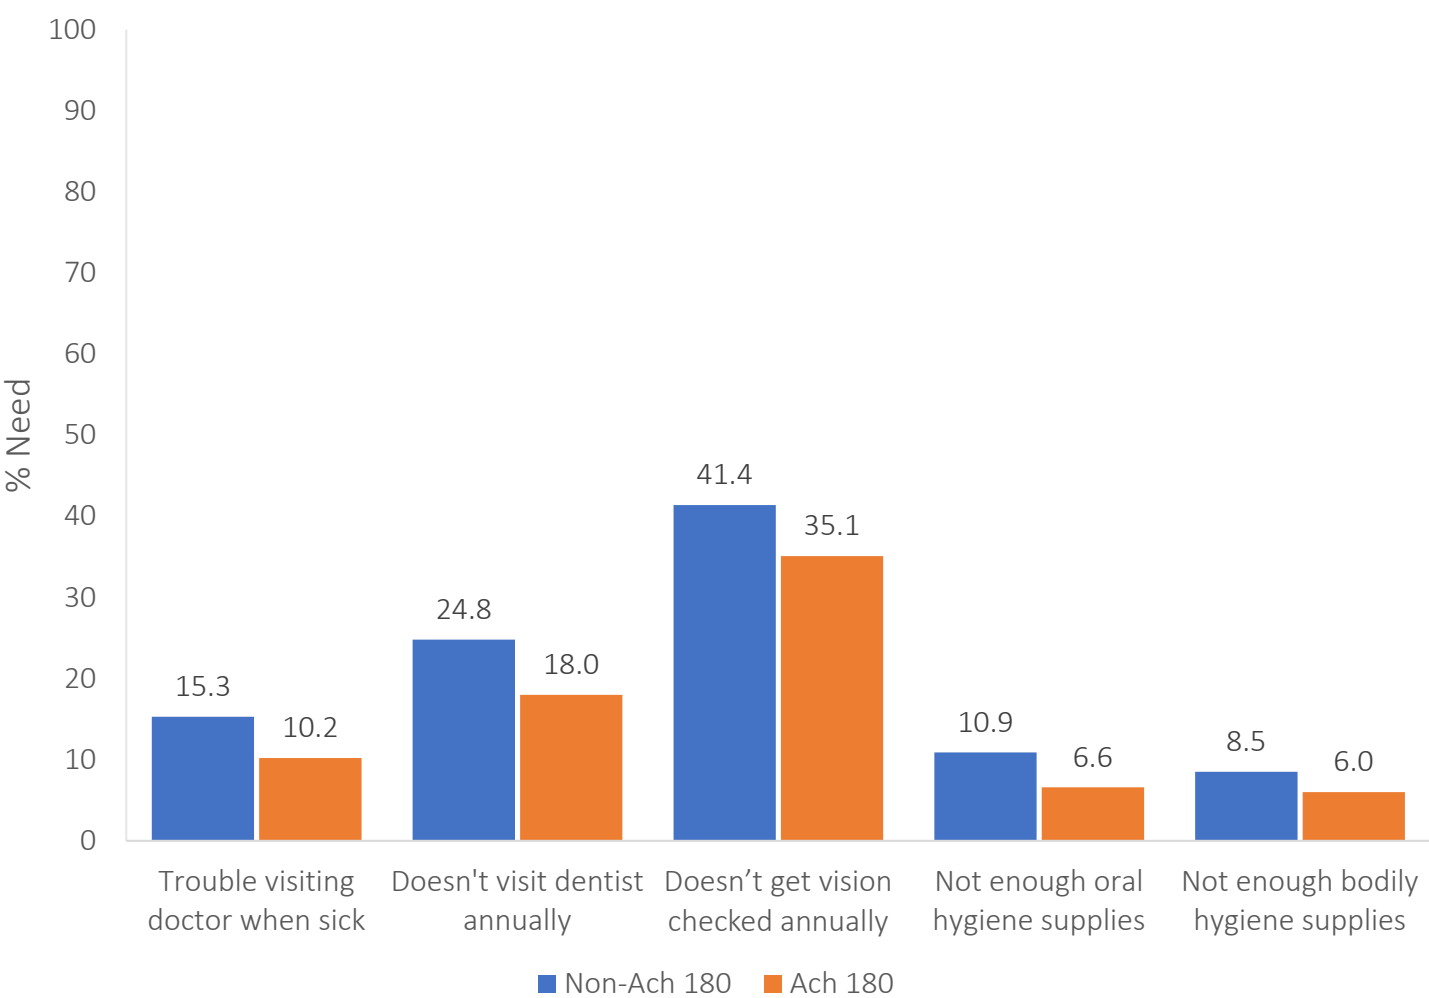

Section II: Need in Achieve 180 Campuses

Generally, families in Achieve 180 campuses did not report higher needs than families in non-Achieve 180 campuses.

In some cases, Achieve 180 campuses appear to have lower needs than non-Achieve 180 campuses.

- For example, health care needs were consistently lower in Achieve 180 campuses

Need at Achieve 180 Campuses: Health, Dental, & Hygiene Needs

How to interpret the figure

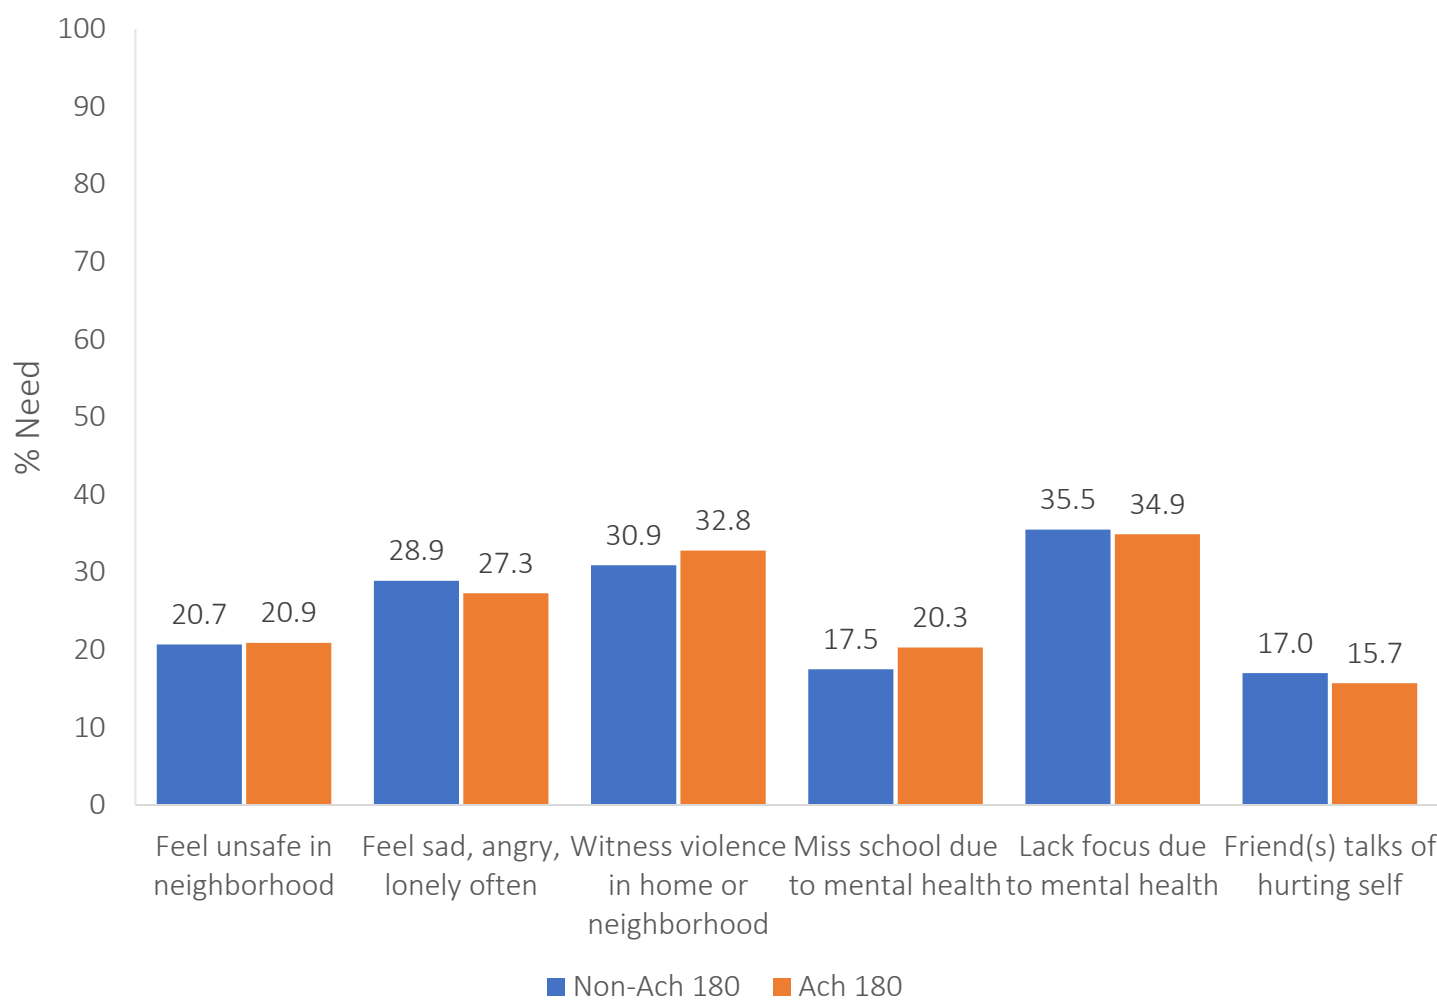

Campuses were split into **non-Achieve 180 campuses** and **Achieve 180 campuses**.

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

10.2% of the students in Achieve 180 campuses reported trouble visiting the doctor when sick (left-most orange bar).

Need at Achieve 180 Campuses: Emotional & Psychological Needs

How to interpret the figure

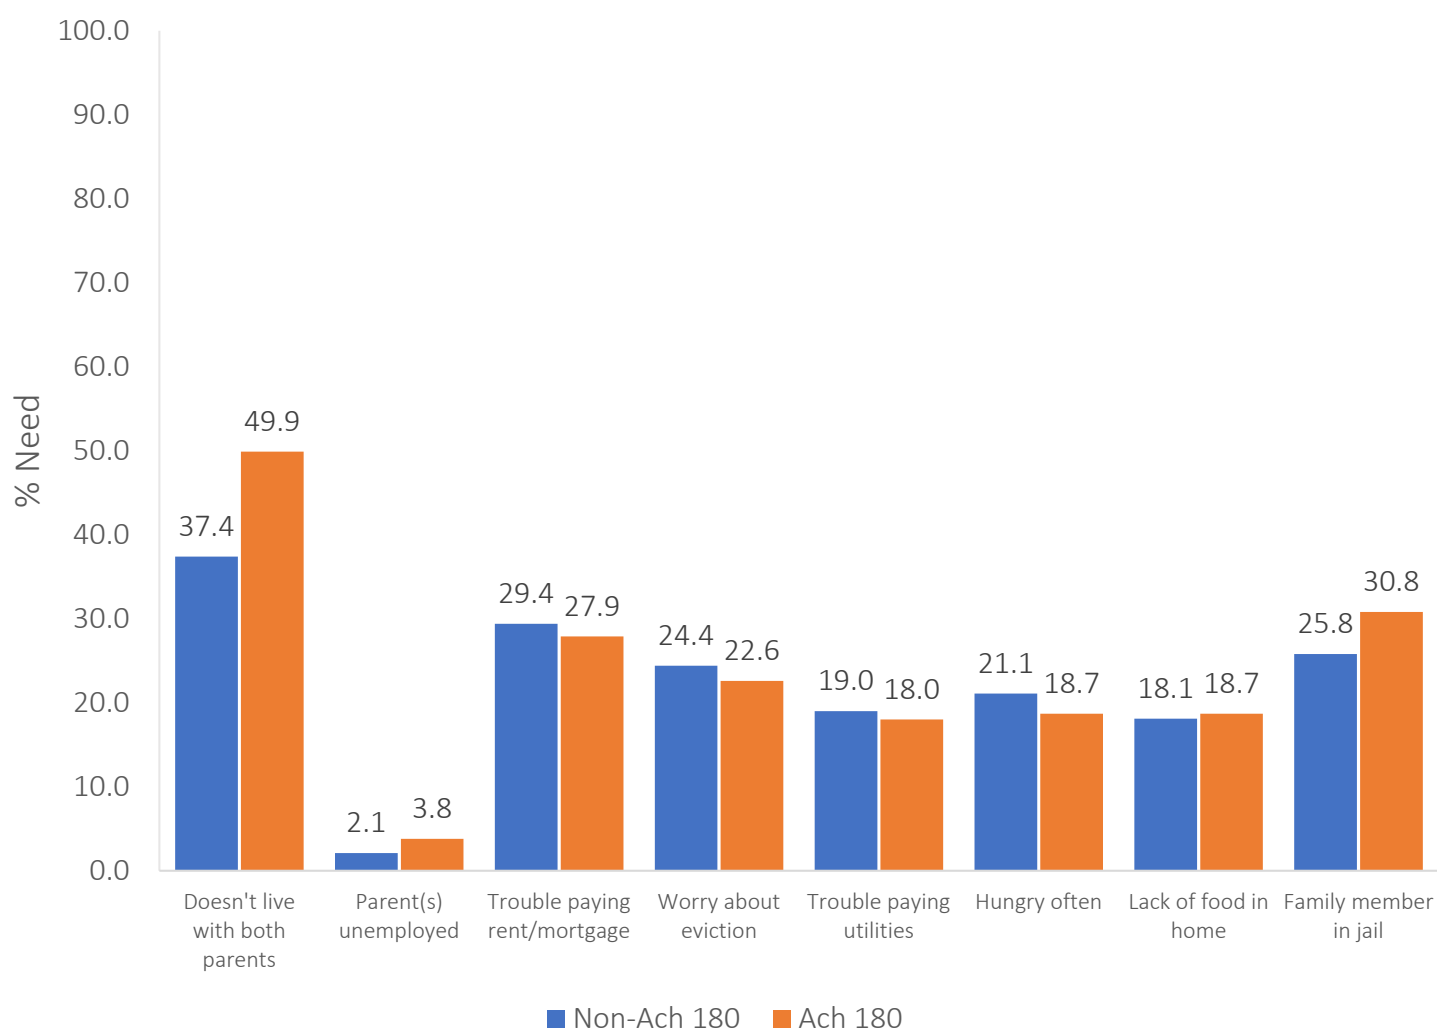

Campuses were split into **non-Achieve 180 campuses** and **Achieve 180 campuses**.

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

20.9% of the students in Achieve 180 campuses reported feeling unsafe in their neighborhood (left-most orange bar).

Need at Achieve 180 Campuses: Home & Family Needs

How to interpret the figure

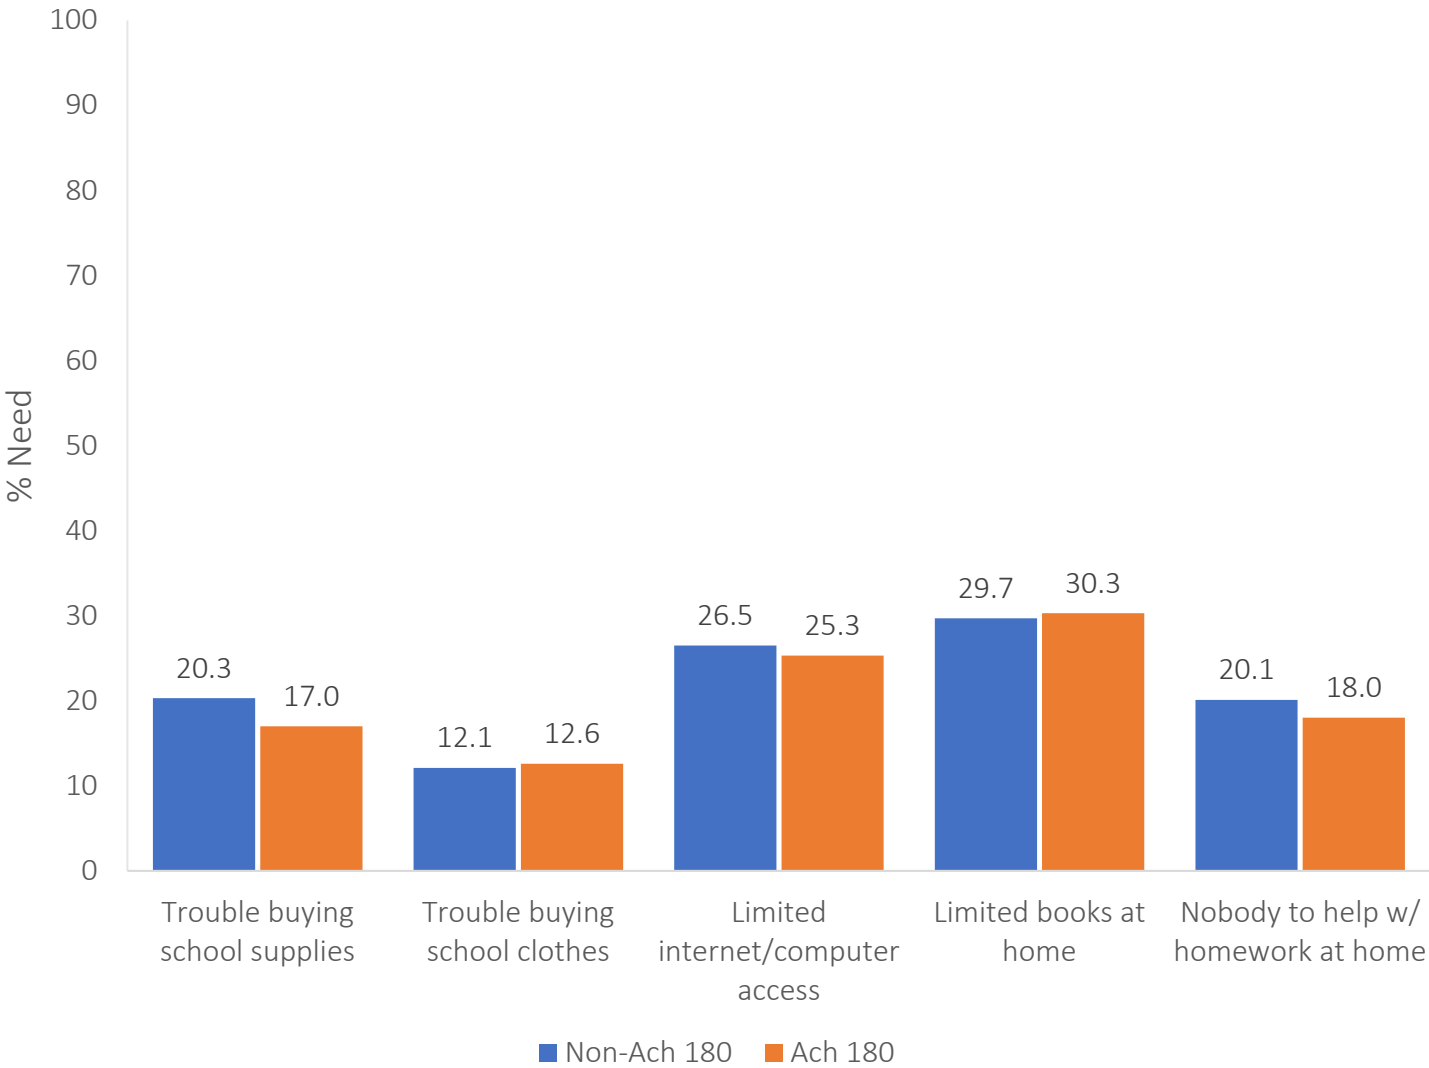

Campuses were split into **non-Achieve 180 campuses** and **Achieve 180 campuses**.

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

49.9% of the students in Achieve 180 campuses reported not living with both parents (left-most orange bar).

Need at Achieve 180 Campuses: Educational & Vocational Needs

How to interpret the figure

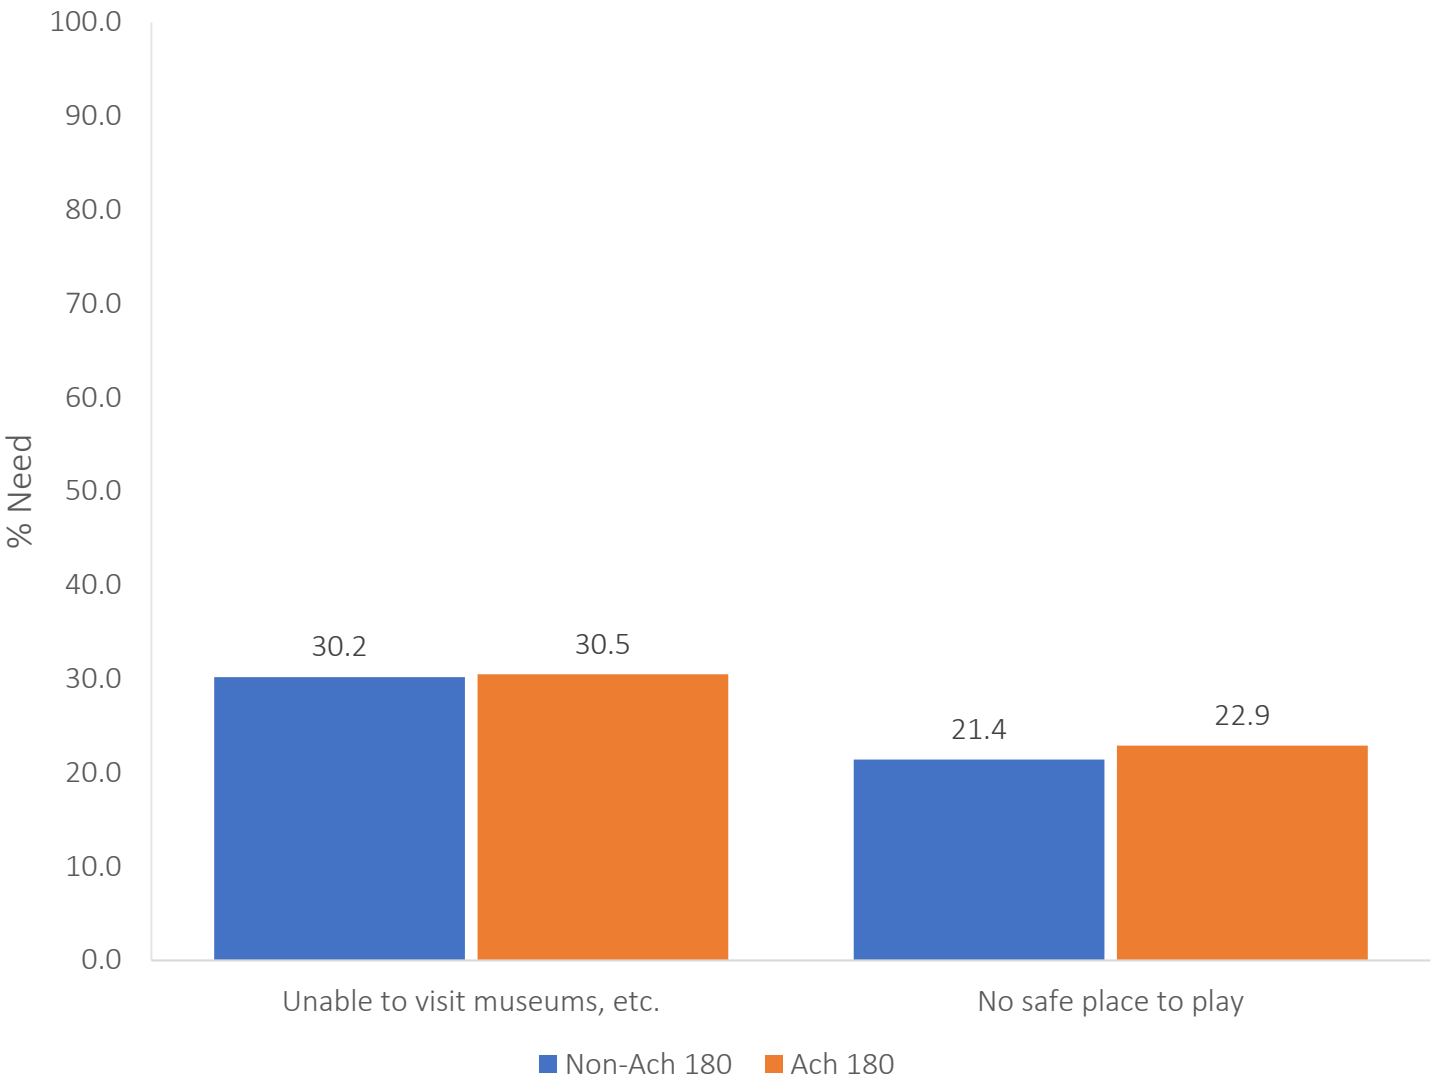

Campuses were split into **non-Achieve 180 campuses** and **Achieve 180 campuses**.

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

17.0% of the students in Achieve 180 campuses reported having trouble buying school supplies (left-most orange bar).

Need at Achieve 180 Campuses: Social & Recreational Needs

How to interpret the figure

Campuses were split into non-Achieve 180 campuses and Achieve 180 campuses.

The bars represent the proportion of students on a campus that indicated a particular question on the survey was an area of need.

Example

30.5% of the students in Achieve 180 campuses reported being unable to visit museums (left-most orange bar).

Wraparound Services Needs Assessment

Section III: Need by Neighborhood Location

Needs vary considerably across neighborhoods located in HISD.

There is no large-scale pattern of need. Rather, needs seem to be very neighborhood specific.

Several neighborhoods have high needs in multiple domains (e.g., Museum park has high health, educational, and recreational needs).

Severity of student needs across neighborhoods: **Health, Dental, & Hygiene**

Legend

Average percent of survey questions reported as needs

- 75% - 100%
- 50% - 74.99%
- 25% - 49.99%
- 0% - 24.99%

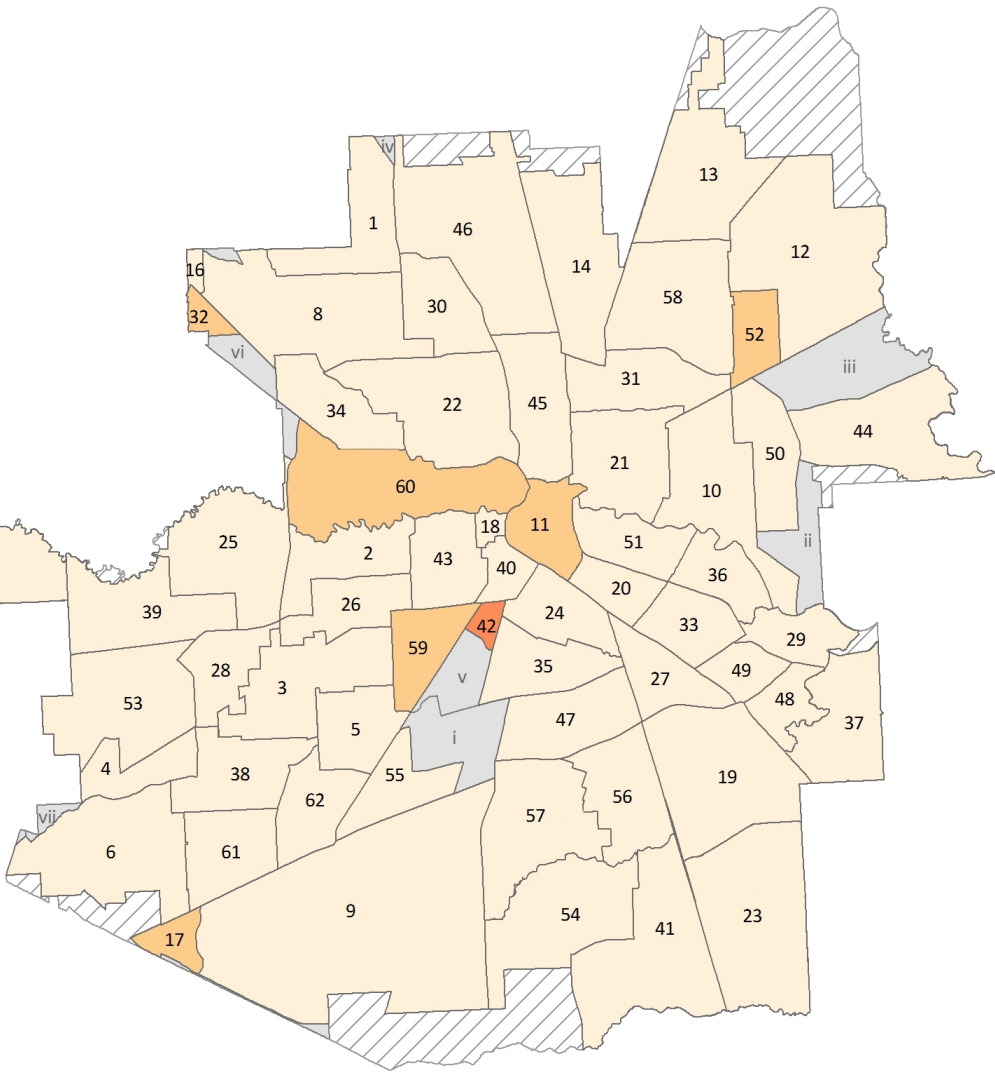

Neighborhood with no survey data

Area within HISD boundaries with no corresponding neighborhood

How to interpret the maps
Darker colors indicate higher levels of need in a neighborhood.

Example

A typical student that attends school in the **Museum Park neighborhood (#42)** answered YES to 3 of the 5 questions in the health, dental, and hygiene section of the survey (3/5 = 60%). As such, their neighborhood was placed in the second highest need category.

Neighborhoods

1 ACRES HOME	26 GREENWAY / UPPER KIRBY AREA	51 SECOND WARD

Wraparound Services Needs Assessment

Section IV: Campus Ranking by Need Domain

This section includes a list of campus rankings based on their level of need in each of the five survey domains

Campuses are color coded using the same categorization approach that was used in the maps provided in Section III

Average percent of survey questions reported as needs

-  75% - 100%
-  50% - 74.99%
-  25% - 49.99 %
-  0% - 24.99%

Example

E-STEM Central High School had the highest health needs of all campuses in HISD.

A typical student at **E-STEM Central** answered *YES* to 4 of the 5 questions in the health, dental, and hygiene section of the survey ($4/5 = 80\%$). As such, the school was placed in the highest need category, and they are shaded red on the Health, Dental, & Hygiene list below (see page 32).

Campuses ordered by severity of need: Health, Dental, & Hygiene

Legend		
Average percent of needs reported by students	75%-100%	50-75%
	25%-50%	0-25%

Wraparound Services Needs Assessment

Section V: Highest Need Campuses by Survey Question

Whereas the previous section ranked campuses in terms of the range of needs within a given survey section (e.g., health, dental, and hygiene), this section identifies campuses in which a high proportion of students reported a need on a particular survey question.

For each survey question, the 5 campuses in which the highest proportion of student marked **YES** on a question are listed in descending order.

One key takeaway from this section is that families in many campuses struggle with multiple needs.

For example, let's look at student's reported health, dental, and hygiene needs at **Garcia elementary school** (see page 38).

- **Garcia** has the highest proportion of students reporting that they cannot visit the doctor when sick (67% of student respondents)
- **Garcia** has the 4th highest proportion of students reporting that they do not get their eyes checked annually (63% of student respondents)
- **Garcia** has the highest proportion of students reporting that they do not have enough oral hygiene supplies (60% of student respondents)
- **Garcia** has the highest proportion of students reporting that they do not have enough bodily hygiene supplies (48% of student respondents)

Top 5 Campuses for each Question: **Health, Dental, & Hygiene**

Visit Doctor When Sick

Garcia ES – 67%
Codwell ES – 55%

Learn more about Wraparound Services in HISD:

- HERC's work on wraparound services has been complemented by a collaboration between HERC and ProUnitas, the organization that manages the district's wraparound services data platform. With support from HERC, ProUnitas developed the [HISD Needs Map](#) and dashboard tool. Available online, the tool is an interactive visual interface illustrating how needs vary across schools in the district. To learn more about the dashboard, [visit the online portal](#), hosted by HISD.
- To learn more about Wraparound Services in HISD, visit the district's [wraparound services webpage](#).

About HERC. Focusing on the most pressing challenges facing the region, the Houston Education Research Consortium (HERC) is a research-practice partnership between Rice University and 11 Houston-area school districts. HERC research is developed directly alongside district leaders with findings shared with decision makers – culminating in long-term, equity-minded solutions, opportunities and growth for Houston and beyond.
